Rebecca Horn Aug 01 2020 Rebecca Horn is a multi-talented artist whose kinetic sculptures, films and installations have contributed to her unique international reputation. Her surreal installations and objects work as metaphors; often playfully erotic, they arouse curiosity and childlike amazement, yet also subconsciously evoke fear and uncertainty *Glance of Infinity* is a comprehensive survey of Rebecca Horn's work from 1970 up to the present day, including her most recently exhibited works at this year's Venice Biennale, for the new building of the Kestner Gesellschaft in Hannover, and in the Munster Skulptur Projekte in Munster 1997. This full scale monograph includes an interview with the artist, and essays by Brace W. Ferguson, Lynne Cooke, Doris von Drahten and Rebecca Horn, as well as a comprehensive index. Beautifully designed and printed, it constitutes an invaluable work of reference and presents a complete visual documentation of the development of one of our most important contemporary artists.

Clinical Handbook of Transcultural Infant Mental Health May 30 2020 This handbook provides a review of relevant topics concerning the interface between culture and mental health, with a particular focus on child-rearing practices and transcultural issues in the perinatal period, infancy, and early childhood. It discusses how to work with infants and families from diverse backgrounds and addresses the most common issues that medical and mental health experts may encounter when working with individuals from other cultures. Chapters examine the considerable range of child-rearing strategies and how families from various cultural groups approach issues such as infant sleep, feeding practices, and care during pregnancy. In addition, chapters address conditions that are seen mostly within a particular sociocultural context and are "culture bound" syndromes or states. The handbook concludes with the editors' recommendations for future research directions. Topics featured in this handbook include: Prejudice, discrimination, and stereotyping within the clinical field. Cultural responses to infant crying and irritability. Cultural issues in response to chronic conditions and malformations in infancy. The healthy immigrant effect. The use of folk and traditionally therapeutic remedies. The Clinical Handbook of Transcultural Infant Mental Health is an essential resource for researchers, clinicians and related professionals, and graduate students in infancy and early child development, child and school psychology, pediatrics, social work, obstetrics, and nursing.
