Making Sense of World History Jan 28 2020 Making Sense of World History is a comprehensive and accessible textbook that helps students understand the key themes of world history within a chronological framework stretching from ancient times to the present day. To lend coherence to its narrative, the book employs a set of organizing devices that connect times, places, and/or themes. This narrative is supported by: Flowcharts that show how phenomena within diverse broad themes interact in generating key processes and events in world history. A discussion of the common challenges faced by different types of agent, including rulers, merchants, farmers, and parents, and a comparison of how these challenges were addressed in different times and places. An exhaustive and balanced treatment of themes such as culture, politics, and economy, with an emphasis on

interaction. Explicit attention to skill acquisition in organizing information, cultural sensitivity, comparison, visual literacy, integration, interrogating primary sources, and critical thinking. A focus on historical "episodes" that are carefully related to each other. Through the use of such devices, the book shows the cumulative effect of thematic interactions through time, communicates the many ways in which societies have influenced each other through history, and allows us to compare and contrast how they have reacted to similar challenges. They also allow the reader to transcend historical controversies and can be used to stimulate class discussions and guide student assignments. With a unified authorial voice and offering a narrative from the ancient to the present, this is the go-to textbook for World History courses and students. Susan Parker has been humiliated by the media and abandoned by her university, but she remains steadfast in her beliefs. That is when she finds herself caught between trusting a man she has only just met and forces beyond her control. *The Spotted Owl: A Derek Riley Novel* follows Derek and Susan as they go on the run after being framed for murders they did not commit. Where once he was surrounded by equally trained and lethal men, Derek's only backup is Susan until the couple turns to Derek's past for help. Human Dignity and the Kingdom of Ends Sep 25 2019 This book advances our understanding of the nature, grounds and limits of human dignity by connecting it with Kant's notion of an ideal moral community, or "Kingdom of Ends". It features original essays by leading Kant scholars and moral and political philosophers from around the world. Although Kant's influential injunction to treat humanity as an end in itself and never merely as a means has garnered the most attention among those interested in analyzing human dignity with a Kantian lens, Kant himself places much more emphasis on the Kingdom of Ends as crucial for defining human dignity. The chapters in this collection focus not only on interpretive issues related to the Kingdom of Ends but also on practical applications that have the potential to advance discussions about the nature and foundations of rights, the content of moral principles, the importance of moral ideals and attitudes and the nature of moral motivation. Exploring and connecting the ideas of human dignity and the Kingdom of Ends significantly deepens our moral understanding, advances discussions in moral and political philosophy and enhances our appreciation of Kant's moral theory. *Human Dignity and the Kingdom of Ends: Kantian Perspectives and Practical Applications* will appeal to scholars and advanced students of Kant, moral philosophy, political philosophy, and political theory.

The Antelope in the Living Room May 26 2022 Welcome to the story of a real marriage. Marriage is simultaneously the biggest blessing and the greatest challenge two people can ever take on. Tunnels and Underground Cities: Engineering and Innovation Meet Archaeology,

Architecture and Art Jul 28 2022 *Tunnels and Underground Cities: Engineering and Innovation meet Archaeology, Architecture and Art. Volume 10: Strategic use of underground space for resilient*

cities contains the contributions presented in the eponymous Technical Session during the World Tunnel Congress 2019 (Naples, Italy, 3-9 May 2019). The use of underground space is continuing to grow, due to global urbanization, public demand for efficient transportation, and energy saving, production and distribution. The growing need for space at ground level, along with its continuous value increase and the challenges of energy saving and achieving sustainable development objectives, demand greater and better use of the underground space to ensure that it supports sustainable, resilient and more liveable cities. The contributions cover a wide range of topics, from investing in urban underground space, via effective use of underground space for sustainable cities, and the use of new energy carriers to the compound use of underground space for integrated campus-urban development. The book is a valuable reference text for tunnelling specialists, owners, engineers, archaeologists, architects, artists and others involved in underground planning, design and building around the world, and for academics who are interested in underground constructions and geotechnics.

Everyday Multiculturalism in/across Asia Aug 29 2022 What does it mean to bring Asia into conversation with current literature on everyday multiculturalism? This book focuses on the empirical, theoretical and methodological considerations of using an everyday multiculturalism approach to explore the ordinary ways people live together in difference in the Asian region while also drawing attention to increasing trans-Asian mobilities. The chapters in this collection encompass inter-disciplinary research undertaken in Australia, Hong Kong, Malaysia, Singapore and South Korea that explores some core aspects of everyday multiculturalism as it plays out in and across Asia. These include an increase in intraregional movements and especially labour mobility, which demands regard for the experiences of migrants from Burma, China, Nepal, The Philippines and India; negotiations of cultural diversity in nations where a multi-ethnic citizenry is formally recognised through predominantly pluralist models, and/or where national belonging is highly racialized; and intercultural contestation against, in some cases, the backdrop of a newly emergent multicultural policy environment. The book challenges and reinvigorates discussions around the relative transferability of an everyday multiculturalism framework to Asia, including concepts such as super-diversity, conviviality and everyday racism, and the importance of close attention to how people navigate differences and commonalities in local and trans-local contexts. This book will be of interest to academics and researchers studying migration, multiculturalism, ethnic and racial studies, and to advanced students of Sociology, Political Science and Public Policy. It was originally published as a special issue of *Ethnic and Racial Studies*.

The Big Mama Collection: Sparkly Green Earrings / The Antelope in the Living Room / Nobody's Cuter than You Mar 24 2022 This collection bundles all 3 of popular author Melanie Shankle's previous books together in one e-book, for a great value! Sparkly Green Earrings "There is really no better indicator you're a mother than acquiring the ability to catch throw-up in a plastic bag, disinfect your hands, and immediately ask your friend to pass the beef jerky as you put on another Taylor Swift song and act as if nothing has happened." This is the type of insight Melanie Shankle offers in this quirky memoir of motherhood. Written in the familiar, stream-of-consciousness style of her blog, Big Mama, Sparkly Green Earrings is a heartwarming and hilarious look at motherhood from someone who is still trying to figure it all out. Filled with personal stories—from the decision to become a mother to the heartbreak of miscarriage and ultimately, to the joy of raising a baby and living to tell about it—Sparkly Green Earrings will make you feel like you're sitting across the table from your best friend. A must-read for anyone who's ever had a child or even thought about it. The Antelope in the Living Room Welcome to the story of a real marriage. Marriage is simultaneously the biggest blessing and the greatest challenge two people can ever take on. It is the joy of knowing there is someone to share in your joys and sorrows, and the challenge of living with someone who thinks it's a good idea to hang a giant antelope head on your living room wall. In The Antelope in the Living Room, New York Times best-selling author and blogger Melanie Shankle does for marriage what Sparkly Green Earrings did for motherhood—makes us laugh out loud and smile through tears as she shares the holy and the hilarity of that magical and mysterious union called marriage. Nobody's Cuter than You There is nothing as precious in life as a friend who knows you and loves you in spite of yourself. Yet over the last couple of decades, we've substituted the joy of real friendship with cheap imitations. We settle for "community" on Facebook and Twitter and a series of text messages that allow us to communicate with someone without the commitment. We like each other's beautifully filtered photos on Instagram and delude ourselves into believing we have a community. But real friendship requires effort. It's showing up, laughing loud, and crying hard. It's forgiving and loving and giving the benefit of the doubt. It's making a casserole, doing a carpool pickup, and making sure she knows those cute shoes are 50 percent off. Written in the same comedic style as the New York Times bestsellers Sparkly Green Earrings and The Antelope in the Living Room, Nobody's Cuter than You is a laugh-out-loud look at the special bond that exists between friends and a poignant celebration of all the extraordinary people God had the good sense to bring into our lives at exactly the right moments. From the friendships we develop over a lifetime to the ones that wounded us and the ones that taught us to love better, Melanie Shankle reveals the influence our friends have on who we were, who we are, and who we will become. And on a day when our jeans feel too tight, our chins have decided to embrace hormone-related acne reminiscent of our teen years, and our kids have tested the limits of our sanity, they are the ones who will look at us and say, "Nobody's cuter than you!"

The DARPA Robotics Challenge Finals: Humanoid Robots To The Rescue Dec 21 2021 The DARPA Robotics Challenge was a robotics competition that took place in Pomona, California USA in June 2015. The competition was the culmination of 33 months of demanding work by 23 teams and required humanoid robots to perform challenging locomotion and manipulation tasks in a mock disaster site. The challenge was conceived as a response to the Japanese Fukushima nuclear disaster of March 2011. The Fukushima disaster was seen as an ideal candidate for robotic intervention since the risk of exposure to radiation prevented human responders from accessing the site. This volume,

edited by Matthew Spenko, Stephen Buerger, and Karl Iagnemma, includes commentary by the organizers, overall analysis of the results, and documentation of the technical efforts of 15 competing teams. The book provides an important record of the successes and failures involved in the DARPA Robotics Challenge and provides guidance for future needs to be addressed by policy makers, funding agencies, and the robotics research community. Many of the papers in this volume were initially published in a series of special issues of the Journal of Field Robotics. We have proudly collected versions of those papers in this STAR volume.
