CMIS and Apache Chemistry in Action Apr 03 2020 Summary CMIS and Apache Chemistry in Action is a comprehensive guide to the CMIS standard and related ECM concepts, written by the authors of the standard. In it, you'll tackle hands-on examples for building applications on CMIS repositories from both the client and the server sides. You'll learn how to create new content-centric applications that install and run in any CMIS-compliant repository. About The Technology Content Management Interoperability Services (CMIS) is an OASIS standard for accessing content management systems. It specifies a vendor-and language-neutral way to interact with any compliant content repository. Apache Chemistry provides complete reference implementations of the CMIS standard with robust APIs for developers writing tools, applications, and servers. About This Book CMIS and Apache Chemistry in Action is a comprehensive guide to the CMIS standard and related ECM concepts. In it, you'll find clear teaching and instantly useful examples for building content-centric client and server-side applications that run against any CMIS-compliant repository. In fact, using the CMIS Workbench and the InMemory Repository from Apache Chemistry, you'll have running code talking to a real CMIS server by the end of chapter 1. This book requires some familiarity with content management systems

and a standard programming language like Java or C#. No exposure to CMIS or Apache Chemistry is assumed. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications. What's Inside The only CMIS book endorsed by OASIS Complete coverage of the CMIS 1.0 and 1.1 specifications Cookbook-style tutorials and real-world examples About the Authors Florian Müller, Jay Brown, and Jeff Potts are among the original authors, contributors, and leaders of Apache Chemistry and the OASIS CMIS specification. So Beautiful Jul 27 2019 More than 50 years ago scientists made a remarkable discovery, proclaiming, "We have found the secret of life ... and it's so pretty!" The secret was the discovery that life is helical, two strands wound around a single axis—what most of us know today as the model for DNA. Over the course of his ministry, author Leonard Sweet has discovered that this divine design also informs God's blueprint for the church. In this seminal work, he shares the woven strands that form the church: missional, relational, and incarnational. Sweet declares that this secret is not just pretty, but beautiful. In fact, So Beautiful! Using the poignant life of John Newton as a touchstone, Sweet calls for the reunion of these three essential, complementary strands of the Christian life. Far from a novel idea, Sweet shows how this structure is God's original intent, and shares the simply beautiful design for His church.

Enhancing and analysing Project Communication Oct 10 2020 Different cultures and languages make web-based communication among the members of international research projects often complex. Focussing on frequently neglected internal communication, this cumulative PhD thesis seeks to present methods from applied LSP research on a concrete case study - a research project from the area of Public Health. Aiming to establish a win-win situation between systematic approaches and communication optimisation, the case study is also used to verify known models. Systematic approaches can be beneficial for enhancing project communication, if they are part of a circle of *theoria cum praxi*. The thesis closes with appeals to linguists, project leaders and funding agencies for improving project communication as well as the involvement of applied linguistics in future.

Electronic Government and the Information Systems Perspective Nov 30 2019 In front of you are the proceedings of the First International Conference on Electronic Government and Information Systems Perspective, EGOVIS. This conference builds on the tradition of its predecessors, the Electronic Government Conferences (EGOV) under the DEXA umbrella, which have been ongoing for nine years, but it also - cluded some innovations. In view of the large number of electronic government c- ferences, we found it important to focus the scope of the conference a little and to increase the quality requirements. Hence this year's conference featured a tougher review process and a smaller set of accepted papers. As a result, these proceedings contain the very best papers of 2010 covering various important aspects of electronic government and information systems used in the public sector. With an acceptance rate of less than 20% EGOVIS belongs to the top ten conferences in the world. The Program Committee accepted 13 full papers and 11 short papers, covering the most recent research trends in electronic government implementations, such as ICT for eGovernment services and monitoring, knowledge and content management systems for temporal and geo-spatial applications, interoperability for electronic government integrated architectures, decision and support tools for eDemocracy and direct parti- pation of citizens in the policy-making strategies, and Web 2. 0 and 3. 0 approaches for collaborative and transparent public sector services.

Implantación de aplicaciones web en entornos internet, intranet y extranet Sep 28 2019 En este libro aprenderemos a poner en funcionamiento, verificar y documentar aplicaciones web en entornos internet, extranet e intranet. Además, veremos cómo elaborar y mantener la documentación de la aplicación web utilizando herramientas de generación de documentación y controlando las versiones, y también aprenderemos a seleccionar y emplear métodos y juegos de pruebas para verificar las funcionalidades y las especificaciones de rendimiento de la aplicación web. Se incluyen, asimismo, test de autoevaluación y actividades de desarrollo que contribuirán de manera decisiva al afianzamiento de los conceptos aprendidos; las soluciones están disponibles en www.paraninfo.es. Los contenidos del manual se ajustan a los establecidos para el MF 0493_3 Implantación de aplicaciones web en entornos internet, intranet y extranet, perteneciente al certificado IFCD0210 Desarrollo de aplicaciones con tecnologías web y regulado por el RD 1531/2011 de 31 de octubre, modificado a su vez por el RD 628/2013, de 2 de agosto.

Alfresco 5.0 kompakt Feb 11 2021 In Unternehmen entstehen täglich bergeweise Dokumente. Doch bei den Mengen und der Vielfalt der verschiedensten Dokumente und Content-Elemente versagen klassische Ablagesysteme. Heute bedarf es professioneller Lösungen, die die Verwalten und die Zugriffsteuerung übernehmen. In diesem Bereich nimmt Alfresco eine Ausnahmestellung ein, denn diese Lösung definiert das Dokumentenmanagement neu. Alfresco bietet verschiedene neue und erweiterte Konzepte für das Handling unterschiedlichster Dokumententypen - und das alles bei einem Maximum an Sicherheit. Dabei ist das System so flexibel ausgelegt, dass es in kleineren Unternehmen genauso eine gute Figur macht wie in Großunternehmen. In dem vorliegenden Buch nimmt der Autor Sie mit auf eine Reise durch die verschiedenen Funktionen und Möglichkeiten, die die Alfresco Community Edition Unternehmen bietet. Dabei erhalten Sie einen umfassenden Überblick über die breit gefächerten Anwendungsbereiche. In diesem Einstieg erfahren Sie, wie Sie Alfresco 5.0 installieren und konfigurieren. Open Systems Dependability May 17 2021 The book describes a fundamentally new approach to software dependability, considering a software system as an ever-changing system due to changes in service objectives, users' requirements, standards and regulations, and to advances in technology. Such a system is viewed as an Open System since its functions, structures, and boundaries are constantly changing. Thus, the approach to dependability is called Open Systems Dependability. The DEOS technology realizes Open Systems Dependability. It puts more emphasis on stakeholders' agreement and accountability achievement for business/service continuity than in elemental technologies.

Learning Alfresco Web Scripts Sep 20 2021 If you are an Alfresco developer who has no experience with web scripts and you want to start developing Alfresco web scripts, then this book is definitely for you.

Alfresco Developer Guide Jul 07 2020 This book focuses on teaching by example. Every chapter provides a bit of an overview, and then dives right in to hands-on examples so you can see and play with the solution in your own environment. All code samples run on both the latest Enterprise and Labs release. This book will be most useful to developers who are writing code to customize Alfresco for their organization or who are creating custom applications that sit on top of Alfresco. This book is for Java developers, and you will get most from the book if you already work with Java but you need not have prior experience on Alfresco. Although Alfresco makes heavy use of open source frameworks such as Spring, Hibernate, JavaServer Faces, and Lucene, no prior experience using these is assumed or necessary.

Cloud- und Open Source-basierte Integrationsplattformen Aug 08 2020 Die Digitalisierung des deutschen Mittelstands schreitet kontinuierlich voran, wenngleich bei noch vielen Unternehmen grundlegende Komponenten einer Digitalinfrastruktur fehlen oder nicht im vollen, gewünschten Umfang vorhanden sind: Wie eine eigene Website, CRM- oder ERP-Systeme. Im Zuge des Fortschritts sind in den Unternehmen in den letzten Jahren mehr und mehr unterschiedliche IT Systeme entstanden, die oft noch nicht miteinander kommunizieren können und Insellösungen darstellen. Gerade das Cloud Computing ermöglicht die einfache und schnelle Nutzung neuer Softwarelösungen, was wiederum die Vielfalt der genutzten IT-Systeme positiv beeinflusst. Die Anbindung von Cloud Diensten und die Verbindung bestehender On-Premise IT-Systeme stellt eine zentrale Herausforderung für kleine und mittelständische Unternehmen (KMU) dar. Das vom BMWI geförderte Projekt Open Integration (OIH) nimmt sich der Herausforderung an. Im Rahmen des vorliegenden Beitrags werden die Ergebnisse von zwei Abschlussarbeiten präsentiert, die sowohl die Governancestrukturen als auch die Geschäftsmodelle von existierenden Cloud- und Open Source-basierten Integrationsplattformen (IPaaS) anhand von abgeleiteten Kriterien untersucht haben. Die Ergebnisse der Analysen werden in

Form des Business Model Canvas, Steckbriefen, Vergleichstabellen und Business Blueprints dargestellt. Damit wird die Frage beantwortet, wie die Governancestruktur und das Geschäftsmodell eines IPaaS-Anbieters, z. B. des OIHs, aussehen kann. The digitalization of the German "Mittelstand" has been on the move regardless of whether companies lack the basic components of the modern infrastructure or are not able to utilize them to their necessary extent (e.g. an own web page, CRM- or ERP-systems). As a result of these evolving companies various IT-systems have been obtained, which are often not able to intercommunicate and are ultimately represent as isolated solutions. In parallel, the coming about of Cloud Computing facilitated the quick and simple usage of new solutions and in turn resulted in benefiting the entire IT landscape. However, the integration of Cloud Services in conjunction with existing on-premise solutions constitutes a central challenge for small and medium enterprises (SME). Consequently, the Open Integration Hub (OIH), a BMWi funded project, has actively tackled this challenge. Based on the scope of research article at hand, this paper will present the results of two theses that draw on the topic of governance as well as business models for existing Open Source Integration Platforms as a Service (IPaaS) and its representation in current literature. In order to answer the question of how best practices for governance and business model for an IPaaS vendors such as the OIH could look like, the results will be exhibited through means of business model canvases, briefings, comparison tables, and business blue prints. In the scope of the research article in hand the results of 2 theses will be summarized, that draws on the topic of governance as well as business models for existing Open Source Integration Platforms as a Service (IPaaS) and its representation in current literature. The results will be presented in the mean of business model canvases, briefings, comparison tables and business blue prints. That answers the question how the best practice governance and business model of an IPaaS vendors, like the OIH, could look like.

Entwicklung workflowbasierter eLearning-Dienste für den Einsatz an Realschulen Oct 29 2019 Die Integration neuer Medien und Technologien in den Unterricht an allgemein bildenden Schulen in Deutschland ist noch nicht in dem gewünschten Masse erfolgt. Lehrpersonen mangelt es häufig an der nötigen Kompetenz beziehungsweise Zeit, ihren Unterricht durch den Einsatz neuer Medien anzureichern. Es fehlen Dienste, die Lehrpersonen bei der Durchführung von eLearning in ihrem Unterricht unterstützen. Die vorliegende Arbeit zeigt, wie workflowbasierte eLearning-Dienste für Realschulen entwickelt werden können. Hierfür wird zunächst das Potenzial aktueller Internettechnologien für den Einsatz im Unterricht analysiert und Anforderungen von Lehrpersonen an eLearning-Dienste werden erfasst. Es wird ein Baukasten mit fünf elementaren und sieben kompositen eLearning-Diensten spezifiziert. Zu jedem der eLearning-Dienste wird ein eLearning-Prozessmodell entwickelt. Es wird exemplarisch gezeigt, wie die eLearning-Dienste als eLearning-Workflows implementiert werden können. Schliesslich wird die Einsetzbarkeit der eLearning-Dienste im Realschulunterricht evaluiert.

IT-unterstütztes Wissensmanagement: Theoretische Aufarbeitung und praktische Einführung einer Wissensmanagementlösung im Hochschulbereich Aug 27 2019 „Wissen ist Macht.“ Dieses Zitat aus dem 16. Jahrhundert beweist auch heute noch - vielleicht mehr denn je - seine Gültigkeit. An Universitäten und Fachhochschulen bildet Wissen die zentrale Ressource. Die Wissensentwicklung durch die Forschung und die Wissensweitergabe durch die Lehre stellen zentrale Aufgabenbereiche von Hochschulen dar. Durch das Management von Wissen bieten sich viele Möglichkeiten, die auch an Hochschulen Prozesse der Wissensentwicklung, -verteilung, -speicherung und -strukturierung unterstützen können. Ziel dieser Arbeit ist es, konkrete Einsatzzwecke von Wissensmanagement an Hochschulen zu analysieren sowie einen Überblick über aktuelle Wissensmanagementwerkzeuge und deren Einsatz zu schaffen. Dazu werden der Wissensbegriff als auch Wissensmanagement im Kontext der IT-Unterstützung betrachtet.

The Campfire Cookbook Jun 25 2019 Outdoor cooking can be magical, so break out of the kitchen, light your fire, and enjoy delicious recipes you can rustle up when camping, dining al fresco, enjoying some beachside living, or having an off-grid adventure. Chef Nico Stanitzok and journalist and lifelong camper Viola Lex have teamed up to create more than 80 sweet and savoury camping recipes. Alongside traditional campfire favourites such as bbq chicken, corn on the cob, and kebabs, you'll find recipes for breads, grilled Camembert, pancakes, and even chocolate cakes baked inside oranges. The eclectic mix of recipes will satisfy the more adventurous outdoor cook, while the step-by-step instructions and evocative photography make the recipes easy to follow.

Each recipe has a symbol that tells you the best way to cook it, be it an open fire, grill, or camping stove. Cook up glorious feasts at a festival, in a camper van on the open road, wild camping out on the trail, "glamping", or simply wild cooking on a picnic at the beach. As well as outdoor cooking hacks and clever tips, you'll find checklists of camping essentials and basic recipes for camping must-haves such as bbq sauce, ketchup, and dukkah. The Campfire Cookbook is the ultimate cookbook for open-air cooks who love to explore.

Gestire il flusso di lavoro in Alfresco Nov 10 2020 Chi pensa che l'informatica sia solo programmazione si sbaglia di grosso. L'informatica è soprattutto progettazione e gestione dell'informazione. Negli ultimi cinque anni ho avuto modo di mettere le mani "dentro" Alfresco. In internet si possono trovare diversi giudizi a riguardo, molto differenti. Personalmente, prima di esprimere un giudizio "ad alta voce", ho voluto toccare con mano lo strumento. Non nascondo che ne sono rimasto piacevolmente stupito. Alfresco è un grande progetto con un grande bacino di utenti, scritto in java che tiene conto di vari dettagli, specifiche di riferimento, problematiche di diverse tipologie di utilizzatori. Gestire un progetto del genere non è per niente facile. Nonostante questo, è impressionante come sia visibile l'impronta dei tecnici Java, degli architetti software che ne definiscono le linee guida di realizzazione. Io in fondo (molto in fondo) sono un tecnico e apprezzo l'evidente sforzo di volere restare coerenti con un mondo che evolve e che è importante seguire. Tutto questo ha però un evidente difetto: Alfresco è uno strumento complesso. E' un software che può fare e dare tanto di più rispetto agli altri, ma che deve essere "capito dentro". L'obiettivo di questa guida è offrire scelte open source ai prodotti Enterprise Content Management (ECM) commerciali. Alfresco Community con SinekartaPI e Sinekarta, offre un vero sistema ECM fornendo un'alternativa Open Source a sistemi commerciali di gestione documentale e protocollazione. Ogni giorno, oltre sette milioni di utenti aziendali e pubbliche amministrazioni in settantacinque paesi si affidano ad Alfresco gestendo quattro miliardi di documenti, file e processi, dietro il firewall, nel cloud e persino sui loro dispositivi mobili (secondo le informazioni elencate da Alfresco www.alfresco.com). Alfresco è il CMS basato su Java più popolare con oltre 25.000 utenti attivi del forum e con oltre 300 estensioni dell'applicazione in forge, creato utilizzando standard completamente aperti. Questo libro si concentra su esigenze di business piuttosto che su sintassi tecniche, mostrando come fare qualcosa, con esempi passo-passo. Spiega come funzionano i workflow e come personalizzarli in base alle esigenze reali e quali scelte, sono disponibili e

come si adattano nel quadro generale. Inoltre è spiegato in modo chiaro e dettagliato come con l'unione di tool come SinekartaPI e Sinekarta, Alfresco diventa un vero e proprio sistema adatto a qualsiasi pubblica amministrazione fornendo un valido e a norma di legge sistema Open Source di protocollazione, firma digitale e conservazione sostitutiva dei documenti

Alfresco 4 Enterprise Content Management Implementation Nov 03 2022 This book distills the hands-on approach of the training courses into a concise, practical book. The emphasis is on getting up and running fast and discovering the scope and power of Alfresco 4 incrementally through practical examples. Though this book is not a developer guide, various examples in the book will help developers to extend Alfresco functionality and to integrate Alfresco with external systems. This book is designed for experienced users, business owners, or system administrators who want to install and use Alfresco in their teams or businesses. Because Alfresco is free, many teams can install and experiment with its ECM features without any upfront cost, often without management approval. You need to have a degree of technical confidence, but you do not require specialist system admin or developer skills to get a basic system up and running. Though this book is not a developer guide, various examples in the book will help you to extend Alfresco functionality and to integrate Alfresco with external systems.
