It is a book for manufacturing companies that are fighting desperately for survival and that will go to any length to improve their factories and overcome the obstacles to success. One could even call this book a 'bible' for corporate survival." Hiroyuki Hirano, February 1989, from the Introduction Volume 1 - The Just-In-Time Production System Volume 2 - Waste and the 5S's Volume 3 - Flow Manufacturing - Multi-Process Operations and Kanban Volume 4 - Leveling - Changeover and Quality Assurance Volume 5 - Standardized Operations - Jidoka and Maintenance/Safety Volume 6 - JIT Implementation Forms and Charts While each of the volumes is available individually, we have affordably priced the set to honor Hirano's recommendation that readers "avoid taking a piecemeal approach... The Public Affairs Faculty Manual Nov 30 2019 "While public affairs faculty study administration and management techniques, few administrators of public affairs programs receive formal training in the nuts and bolts of academic administration. Even those faculty who come to the academia after distinguished careers in managerial positions may not be ready for the very different (and difficult) environment of university administration. The Public Affairs Faculty Manual argues that public affairs as a field needs to ensure that knowledge about administration and management is applied to the running of its academic programs, and brings together major leaders in the discipline to explore key features of academic administration. Many of these leaders have served as MPA directors, chairs, and deans at the nation's top public affairs programs. Crucial issues of academic administration discussed include the basics of public affairs programs, models of governance, roles of different administrative leaders, planning and budgeting for programs, navigating the accreditation process, assessing and improving student learning, ensuring social equity and cultural competency, mentoring faculty, developing curriculum, and helping provide service and applied research to community partners. Themes running throughout the book's chapters are examined, and

additional resources to help manage public affairs programs are offered. The collection and the strategies within it are designed to encourage faculty to assume positions of leadership in their programs and manage those programs in an effective, efficient, and fair manner. The Public Affairs Faculty Manual is required reading for new, seasoned, and aspiring academic administrators in public administration, public policy, and nonprofit management programs, as well as schools of government"--
