The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content, and application of key concepts in the managerial accounting course, while addressing the needs of instructors who do not wish to teach the financial accounting-oriented content that is included in the Garrison solution (no debits/credits). The other two programs contain greater coverage of financial accounting topics. *Managerial Accounting for Managers 4e* is geared towards professors who love Garrison's market-leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job-order costing chapter has been extensively rewritten to remove all journal entries. By linking business decisions with accounting information students will be motivated to learn and make more informed

decisions. Balakrishnan will appeal to courses where there is a true focus on decision making and accounting is placed within a business context.
