[Pioneering the Possible](#) Jul 20 2019 Three-time Nobel Peace Prize nominee Dr. Scilla Elworthy, a realist with 40 years' experience at the sharp end of politics and conflict, presents a bold but realistic vision for the future in *Pioneering the Possible*. Human beings worldwide are anxious, afraid for their children's futures, dissatisfied by their lives, but unsure what to do. Our global ecosystems and supply chains are under threat and our leaders appear to have failed us. *Pioneering the Possible* addresses these anxieties head-on by envisioning a future that could work for everyone, rich and poor, demonstrating with real-life examples how that future is already emerging. *Pioneering the Possible* tackles the deeply embedded 20th-century values that get in the way of addressing global problems, and shows how these destructive values can be—and are being—reversed. We know the world is in crisis: we are spoiling our planet at such a rate that soon it may be unable to sustain human life. This crisis is in fact a vast opportunity, because a secure and satisfying future for all of humanity is perfectly possible if we make the right choices. But building such a future will require the leap in consciousness that Einstein indicated when he said, "No problem can be solved from the consciousness that created it." *Pioneering the Possible* investigates what this new consciousness is and takes us to meet the leaders who have learned to apply it. With profiles of individuals who exemplify transformative leadership such as Dr. Desmond Tutu and Aung San Suu Kyi, Dr. Elworthy demonstrates how anyone can develop the magnificent inner power to build their own personal contribution to the future and become a 21st-century pioneer of what's possible. The book then contrasts the value systems that underpin our current decisions with the kind of values that would enable us to make better choices—those that could get us out of the mess we're in. To envision the kind of future that is possible—a lift-off into life as it could be—Elworthy calls on some experienced specialists to look through their telescopes into the future, then brings in the pragmatists who know what to do in their fields, because they've done it, tested it, and made it work. *Pioneering the Possible* ultimately helps you find your unique way to be useful; as Dr. Elworthy says, "to discover your mission and put it into action—instead of worrying on the sidelines—is to find peace of mind and a heart full of love." From the Trade Paperback edition.

The EU, Promoting Regional Integration, and Conflict Resolution Apr 28 2020 This book provides a comprehensive study into the promotion of regional integration as a central pillar of European Union (EU) relations with the rest of the world. It is a strategy to deal with a core security challenge: the transformation of conflicts and, in particular, regional conflicts. Yet to what extent has the promotion of regional integration been successful in transforming conflicts? What can we regard as the core mechanisms of such an impact? This volume offers a comprehensive assessment of the nexus between promoting integration and conflict transformation. The authors systematically compare the consequences of EU involvement in eight conflicts in four world regions within a common framework. In doing so, they focus on the promotion of integration as a preventative strategy to avoid conflicts turning violent and as a long-term strategy to transform violent conflicts by placing them in a broader institutional context. The book will be of use to students and scholars interested in European foreign policy, comparative regionalism, and conflict resolution.

Reconcile Nov 16 2021 "Emotionally powerful and full of practical advice and resources." —PUBLISHERS WEEKLY *Reconcile: Conflict Transformation for Ordinary Christians*, by international mediator John Paul Lederach serves as a guidebook for Christians seeking a scriptural view of reconciliation and practical steps for transforming conflict. Originally published as *The Journey Toward Reconciliation* and based on Lederach's work in war zones on five continents, this revised and updated book tells dramatic stories of what works—and what doesn't—in entrenched conflicts between individuals and groups. Lederach leads readers through stories of conflict and reconciliation in Scripture, using these stories as anchors for

peacemaking strategies that Christians can put into practice in families and churches. Lederach, who has written twenty-two books and whose work has been translated into more than twelve languages, also offers new lenses through which to view conflict, whether congregational conflicts or global terrorism. A new section of resources, created by mediation professionals, professors, and pastors, offers tools for understanding interpersonal, church, and global conflict, worship resources, books and websites for further study, and invitations to action in everyday life. Dewey on Democracy Jun 30 2020 Revived appreciation of John Dewey as an inspirational advocate of participatory democracy has been tempered by criticism that he lacks a concrete political program. William R. Caspary makes the case for Dewey as a more discerning and challenging political theorist than this. Caspary draws from Dewey's extensive writings a concrete politics of participatory democracy, solving classic dilemmas confronting both democratic theorists and citizen activists. He compares Dewey's views with the full range of approaches in contemporary democratic theory and explores the underpinnings of Dewey's political theory by offering a thorough and innovative account of his philosophy of science, social science, and ethics. In Dewey's democratic theory, conflict is an inescapable condition of politics, according to Caspary, and is also an essential stimulus for the advancement of individuals and societies. Recognizing the centrality of conflict, Caspary claims, Dewey makes conflict resolution an overarching concept in his theory of democracy. Caspary argues that conflict resolution is central to Dewey's philosophy of ethics and of science. Caspary—a scholar with many years of experience as a social movement activist, ombudsperson, and mediator—traces this conflict resolution orientation throughout Dewey's writings. Caspary brings Dewey's abstract theories down to earth with examples from present-day social and political experiments, including progressive educational experiments, common-ground dialogues on abortion, the South African program for truth and reconciliation, and worker self-management cooperatives. These cases illustrate Dewey's linking of political action, social experimentation, and public discourse. They pin down specific meanings for Dewey's sometimes vague political maxims, and suggest workable programs. Throughout Caspary demonstrates the courage and vision of Dewey's unwavering commitment to participatory democracy.

Moving Toward a Just Peace Sep 02 2020 Mediation, the facilitated discussion of disputes and conflicts, is a flexible approach that can be used at all levels of intervention to move us toward a global peace that is both inclusive and fair. This volume, edited by Jan Marie Fritz, brings together mediators, scholar-practitioners, and a veteran diplomat to discuss the life and times of mediation in very different settings. The 14 chapters include three essays about culture, creativity, and models/theories/approaches. And there are ten chapters about practice: community mediation, mediation by police, special education mediation; interventions on behalf of widows in Nigeria; capacity-building work in Burundi; mediation in Israel; the creative facilitation of meetings; community conferencing; UN Security Council Resolution 1325 (Women and Peace and Security) and the role of civil society organizations in peacebuilding. This volume discusses the expanding roles - from prevention through societal transformation - assumed by mediators and the urgent need for mediators working at different intervention levels to learn from each other. This volume is a must read for scholars, researchers, policymakers, civil society representatives and practitioners with interests in effective dispute and conflict intervention. It particularly is recommended for those managing dispute and conflict intervention processes.

Almost Home Aug 01 2020 Is there anything more we can do? Is entry into God's world possible? Is conscious contact with God Himself possible? Is our world but a shadow of the world as God would have it be? We all ask these questions on our spiritual journey. Most of us seek things that promote our wellbeing. We want to love; and we want to be loved. We want to be appreciated. We want to be safe. We want to be

free from worry and other turmoil. We want to be content. To these ends we devote our lives. To these ends we devote our prayers. Fortunately, a creator is never far from his creation. Deep inside, many people have asked why it has to be this way. Maybe it doesn't. Maybe we are Almost Home after all.

New Paths and Policies towards Conflict Prevention Mar 08 2021 This book explores the discourse on conflict prevention and peacebuilding by bringing together researchers from China and Switzerland over a series policy dialogues. The Charter of the United Nations, adopted in the immediate aftermath of World War II, is clear about the fundamental necessity for the international community to act in partnership to prevent violent conflict. Given recent shifts in global power dynamics, there is an apparent need for international policy issues to be addressed in ways that are inclusive of a wider variety of perspectives and approaches. Chinese policy actors are increasingly interested in fostering their own discourse on issues of prevention and peacebuilding, rooted in Chinese experience, and engaging with peers from other contexts. The chapters in this volume explore the rationale for conflict prevention and review prevailing academic and practitioner discourses on fundamental questions such as the rationales for why conflicts should be prevented and whether ‘mainstream approaches’ are still relevant. This book will be of interest to students of peacebuilding, conflict resolution, Chinese politics, and International Relations. The Open Access version of this book, available at

Women and War May 22 2022 Women everywhere have long struggled for recognition as equal, productive members of society, worthy of taking part in the political process. These struggles become even more pronounced in times of conflict and war, when the symbolism and myths of womanhood are used to stoke nationalistic ideas about the survival of the state. Yet for all the rhetoric that takes place in their name, it’s men who generally make decisions regarding war. Women and War examines how women respond to situations of conflict. Drawing on both traditional and feminist international relations theory, it explores the roles that women play before, during and after a conflict, how they spur and respond to nationalist and social movements, and how conceptions of gender are deeply intertwined with ideas about citizenship and the state. As Kaufman and Williams show, women do more than respond to conflict situations; they are active agents in their own right shaping political and historical processes. Their conclusions encourage us to rethink the prevalent assumptions of international relations, history and feminist scholarship and theory.

The Antenicene Pascha Jul 12 2021 Beginning with "spiritual" interpretation and anti-Judaic polemic to secure the Pesach institution narrative (Ex 12) for Christian proclamation, major centers of Asia Minor and Syria, then Upper Egypt and the West, develop distinct rhetorical structures that load first the day, then the date of Pascha, with theological meaning. The emergence of the four-gospel canon at the end of the second century enriches, but does not supplant, a dialogue between Christian rituals and the scriptures inherited from Judaism. The Antenicene Pascha takes a fresh approach to the scattered literary remains of the earliest paschal feast by acknowledging them for what they are: relics of heated disputes about ritual boundaries that had elevated the Pascha, an observance with no explicit reference in first century literature, to an icon of unity and orthodoxy at the Council of Nicaea. Just as these disputes repeat familiar patterns of establishing Christian identity, much modern scholarship employs hermeneutical categories derived from other conflicts (Great Schism, Reformation) that often obscure, rather than reveal, the history of the paschal celebration. This book will be of value not only to students of the liturgy, but also to those interested in the history of biblical hermeneutics, the canon, and the roots of Christian anti-Judaism.

Church Conflict Aug 13 2021 You love your work. You love the people--most of the time. They respect you, most of the time. You work together with colleagues, staff, and laity, with energy and enthusiasm, most of the time. But then something goes wrong: a word spoken in anger, a misunderstanding, and things turn sour. What do you do? How do you deal with conflict, whether it be long or short-term, low or high intensity? Conflict is a part of the human predicament, yet it need not define or control your ministry. This

book is designed to help the reader ask certain key questions about the nature and scope of the conflict they are experiencing and, based on the answers to those questions, move beyond conflict. The author lays out the variety of responses to conflict, running the gamut from avoidance to accommodation to compromise to collaboration. Written with the real needs of congregations in mind, this book will serve as a reliable guide to all who wish to move through conflict into a more effective and authentic fulfillment of their calling.

People and Wildlife, Conflict or Co-existence? Sep 14 2021 Human-wildlife conflict is a major issue in conservation. As people encroach into natural habitats, and as conservation efforts restore wildlife to areas where they may have been absent for generations, contact between people and wild animals is growing. Some species, even the beautiful and endangered, can have serious impacts on human lives and livelihoods. Tigers kill people, elephants destroy crops and African wild dogs devastate sheep herds left unattended. Historically, people have responded to these threats by killing wildlife wherever possible, and this has led to the endangerment of many species that are difficult neighbours. The urgent need to conserve such species, however, demands coexistence of people and endangered wildlife. This book presents a variety of solutions to human-wildlife conflicts, including novel and traditional farming practices, offsetting the costs of wildlife damage through hunting and tourism, and the development of local and national policies.
