**Bangladesh Confronts Climate Change** Jun 01 2020 Living in a low-lying and densely populated country on the front line of climate change, Bangladeshis are taking a lead in adapting to rising temperatures and campaigning to limit climate change. Global warming will worsen this country's existing environmental problems – causing a rise in sea level, more flooding and stronger, more damaging cyclones. Bangladeshis know what is coming, and how to respond, because they are already effectively combating environmental and social challenges. Cyclone shelters and warning systems have cut the fatality rate dramatically; new varieties of rice have raised nutrition levels; women's education has slowed population growth; land is being raised to respond to sea level rise. Bangladeshis will keep their heads above water, but at huge costs. Will the industrialised countries curb their greenhouse gas emissions and pay for the damage they have already done?

**Before and After the State** Oct 29 2022 The creation of the Canada–US border in the Pacific Northwest is often presented as a tale of two nations, but beyond the macro-political dynamics is the experience of individuals. *Before and After the State* examines the imposition of a border across a region that already held a vibrant, highly complex society and dynamic trading networks. **Twice Kissed** Feb 27 2020 The #1 New York Times bestselling author of *You Betrayed Me* delivers a twisty, page-turning novel of twin sisters and a dark family history . . . Sisters share a bond—twins especially. For Maggie McCrae and Mary Theresa, that link once allowed them to communicate no matter how much distance separated them. But there were differences between them too. Maggie has always been the paler, quieter version of her wild and glamorous sister. Mary Theresa, adopting the name Marquise, has become a TV star, while Maggie is building a new life in small-town Idaho after her husband’s death, and wrangling a resentful teenage daughter. But when Mary Theresa disappears, their connection reignites, and Maggie knows with certainty that her twin is in real danger. Thane Walker, the man Maggie loved until Mary Theresa lured him away, is her best hope of learning the truth—if Maggie can bring herself to trust him. But the deeper she digs, unraveling the layers of her sister’s life, the more she discovers about her own complicated past. A legacy of deceit and betrayal has brought Maggie within a hair’s breadth of a killer—one intent on revenge at any price . . . **Landscape History of Hadramawt** Sep 23 2019 The rugged highlands of southern Yemen are one of the less archaeologically explored regions of the Near East. This final report of survey and excavations by the Roots of Agriculture in Southern Arabia (RASA) Project addresses the development of food production and human landscapes, topics of enduring

interest as scholarly conceptualizations of the Anthropocene take shape. Along with data from Manayzah, site of the earliest dated remains of clearly domesticated animals in Arabia, the volume also documents some of the earliest water management technologies in Arabia, thereby anchoring regional dates for the beginnings of pastoralism and of potential farming. The authors argue that the initial Holocene inhabitants of Wadi Sana were Arabian hunters who adopted limited pastoral stock in small social groups, then expanded their social collectives through sacrifice and feasts in a sustained pastoral landscape. This volume will be of interest to a wide audience of archaeologists including not only those working in Arabia, but more broadly those interested in the ancient Near East, Africa, South Asia, and in Holocene landscape histories generally.

Not since the day fifteen years ago when she was offered what she most wanted—a healthy newborn baby. He was hers to keep, provided she moved far away, for good. She's kept her word, raising Jon in a small Oregon town, lying to him for both their sakes. Despite his gift—or curse—of premonition, Jon hasn't divined that he was adopted illegally. But now Kate's long-ago choices are engulfing the life she's tried to build. Daegan O'Rourke has come to this remote corner of the Pacific Northwest to find answers only Kate can give. He understands why she's wary of him, but there's a far greater threat at hand. Someone is tracking Jon down—ready to kill him and anyone who gets in the way. **Hitchcock and the Spy Film** Dec 19 2021 Film historian James Chapman has mined Hitchcock's own papers to investigate fully for the first time the spy thrillers of the world's most famous filmmaker. Hitchcock made his name as director of the spy movie. He returned repeatedly to the genre from the British classics of the 1930s, including *The 39 Steps* and *The Lady Vanishes*, through wartime Hollywood films *Foreign Correspondent* and *Saboteur* to the Cold War tracts *North by Northwest*, *Torn Curtain* and his unmade film *The Short Night*. Chapman's close reading of these films demonstrates the development of Hitchcock's own style as well as how the spy genre as a whole responded to changing political and cultural contexts from the threat of Nazism in the 1930s and 40s to the atom spies and double agents of the post-war world.
