Google AdSense Quick Guide Jun 14 2021 With the new version of AdSense, Google has changed virtually everything about the interface and added some new features. The navigation structure has been completely overhauled, as have the available types of ads. Google has reorganized the former AdSense Channels into five basic types of ads: Content, Domains, Feeds, Mobile Content, and Search. In addition, Google has tied in-game and YouTube advertising into AdSense, to make it easier to place ads in online games and YouTube videos. Google also has made it easier and more prominent to enable ad blocking -- that is, to keep certain types of ads or ads from certain advertisers from appearing on your website. Google has also beefed up its AdSense reporting system, increasing the types of reports available and adding a new Overview page that displays key information in a single snapshot. While the new interface is a step forward for managing an AdSense account, existing AdSense users may find it strange and confusing-and have trouble finding out how to do what they're used to doing. That's where this Quick Guide comes in. Get up to speed quickly and easily. Then get back to making money.

Podcasting with Youth: A Quick Guide for Librarians and Educators Jun 26 2022 Learn how to set up a student-led podcast in your library, involve staff from several subject areas, market effectively, what challenges you are likely to face, and how podcasting will benefit the students and school overall. Podcasting from the library is a growing movement. Podcasting with Youth teaches librarians and educators how to set up, develop, market, and deliver a successful youth-led podcast from their library. Putting youth in control when interviewing authors and other guests develops their leadership and technical skills and brings new users to the library to engage in a unique library activity. This program can be set up relatively cheaply, and readers will learn how to use the technology required to deliver a podcast. Sound recording equipment, microphones, mixers, and audio files may be intimidating to some librarians and educators; this book quells those fears by explaining the technology in a straightforward, how-to manner. It also includes student input on what podcasters have learned, the challenges they have faced, and their plans for the future. Author Lucas Maxwell offers many helpful tips to librarians who want to learn how to create a program that puts students in charge and allows them to produce a tangible product that their peers will be interested in. Offers practical information on how to set up your own youth-led podcast in your library, including equipment to purchase, potential pitfalls, and marketing strategies Features examples of high/middle school library podcasts from around the world Includes appendices of useful books and other material related to podcasting and using related technology in the library

Quick Guide to Good Kids Dec 21 2021 Being a good parent is more complicated than ever. Kids are exposed to a jungle of dangers: premature sex, underage drinking, drug use, etc. Yet, parents are so busy that many despair of their ability to transform their children into high-functioning adults. In Quick Guide to Good Kids, Virginia Bentz shows how parents can be a strong line of defense for their children. By

managing the environment of your offspring when you are with them, you'll help ensure that they make the right decisions when you aren't. Bentz's strategies are simple: . Spend lots of time with babies; it's the age at which they're most receptive.. Don't criticize. Children come to believe what you tell them.. The teacher's word is law-don't argue with her.. Don't quit. You must teach by example how work gets done.. Know where your teenagers are. Period.The bottom line? Parents have lots of time to help their children grow into successful and happy adults-they simply have to know how to use it. For more information, visit www.QuickGuideToGoodKids.com.
