[Drew Peterson](#) Jun 14 2021 A collection of Chicago Tribune articles detailing the case and trial of the infamous police officer convicted of murdering his third wife, Kathleen Savio. In 2004, Kathleen Savio, the third wife of Bolingbrook, Illinois, police officer Drew Peterson, was discovered dead in a bathtub from an apparent drowning. Her death was deemed

accidental—at first. In 2007, following the disappearance of Peterson's fourth wife, Stacy, officials reopened the Savio case with Drew as the primary suspect. *Drew Peterson: The Tribune Files* is a true-crime ebook comprising actual Chicago Tribune articles. By compiling years of original reporting in chronological order, this book preserves the shock of each sordid twist in real time as the story grew from a local curiosity into a national phenomenon (complete with a made-for-TV Lifetime movie starring Rob Lowe). This book captures every detail of the murders and the surrounding media circus, from Peterson's bizarre reality TV stint as a celebrity criminal, to the chilling courtroom testimony of Peterson's brother as he unwittingly assisted with the disposal of a human body. Special attention is paid to the trial itself, which broke legal ground when hearsay testimony from Peterson's fourth wife, recorded before her disappearance, was allowed as evidence. The Chicago Tribune's award-winning staff possesses the unique perspective of having covered this case from beginning to end, and the most fascinating pieces have finally been curated into a single collection of the gruesome facts.

Engines and Other Apparatus of the Milwaukee Fire Department Aug 17 2021 The vehicles and other firefighting equipment of the Milwaukee Fire Department, like the department itself, are unique among the fire service. It built more of its own apparatus than any other American city and few can match the scope and character of apparatus used to serve and protect life and property in Milwaukee. Through detailed

research, firsthand narratives, and captivating photos, the author walks the reader through the fascinating history of the incredible machines that served Cream City from the mid-nineteenth century to modern times. This volume traces the ever-changing face of Milwaukee's fire-fighting and life-saving equipment in parallel with the city's own history and growth. The fire department workshop's reputation for ingenuity is shown through its adaptations to disastrous fires that brought about changes in laws, economic growth and decline, the establishment of Milwaukee's ethnic neighborhoods, the difficult transition from horses to motorization, the wartime and post-war experience, the corporate world of apparatus manufacturers, and Milwaukee's fireboat fleet.

Used Car Buying Guide 2007 Oct 26 2019 Features recommendations and ratings on hundreds of small, medium, and large-sized cars based on quality, economy, performance, and comfort standards, with judgments on crash protection, and assessments of available options

BUYING GUIDE ALL NEW FOR 2005 Sep 25 2019

Charging Ahead Jun 22 2019 Mary Barra's quest to move GM to a manufacturer of electric cars has captured the attention of automobile aficionados, green-business advocates, and leaders of all types who have to admire Mary's toughness in moving forward despite the overwhelming obstacles in her path. A decade ago, no one would have guessed that GM would be the company poised to lead America into the future. At a time when business book readers seem endlessly fascinated by soaring tech giants like Amazon and Netflix, and ill-fated startups like WeWork and Theranos, why is it important to put the spotlight back on 112-year-old GM? Because Charlie Wilson's quip from 1952 is still true: What's good for GM is still good for America, and vice versa. America needs to transition to a new era of clean energy and environmentally sustainable transportation. We also need to adapt to a world with far fewer assembly-line jobs, but far more skilled jobs for

people who can design, build, and operate robots and other high-tech machines. GM's attempt to lead those transitions is as important as it is dramatic. Equally compelling is the story of GM's CEO, Mary Barra, who against all odds took the reins at GM in 2014. Since that time, she has attempted to reinvent a century-old company and equip it for the biggest change in transportation since the internal combustion engine replaced the horse. In the process, she has been ripping out GM traditions by the roots—and taking flak from all sides. Her plan is to make GM—the company famed for the gas-burning Corvette, hulking Cadillac Escalade, and carbon-spewing Silverado pickup—purely electric and clean by 2035. She may not be as wealthy as Jeff Bezos, as brash as Elon Musk, or as powerful as Mark Zuckerberg, but Mary Barra is just as important as any of them. And as one of the most powerful female executives in the world, she is overdue for an in-depth look at her forward-thinking vision, her approach to leadership, and her accomplishments against the odds.

Lemon-Aid New Cars and Trucks 2012 Feb 20 2022 Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers) GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago) You can save \$2,000 by cutting freight fees and

"administrative" charges) Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea) Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

GM LS-Series Engines Dec 21 2021 This ultimate guide to installing the LSX in your GM muscle car details all the necessary steps from concept to completion, including fabrication and installation of motor mounts, wiring, fuel system, and driveline considerations.

Swap LS Engines into Camaros & Firebirds: 1967-1981 Oct 31 2022 Provides excellent instruction and guidance for selecting the best engine for a budget, choosing the adapter plates and engine mounts, dropping the engine in the car, selecting the ideal transmission and drivelines, and completing all facets of the swap.

charts that rate competitive vehicles in popular market segments - Expanded in-depth advice on buying and leasing - Editors' and consumers' ratings - High-quality photography - Editors' Most Wanted picks in 29 vehicle categories In addition to these features, vehicle shoppers can benefit from the best that they've come to expect from the Edmunds name: - In-depth articles on all-new vehicles - Crash test ratings from the National Highway Traffic Safety Administration and the Insurance Institute for Highway Safety - Warranty information - Previews of future vehicles not yet for sale

Lemon-Aid Used Cars and Trucks 2009-2010

Jan 28 2020 For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

The Car Book 2005 Mar 12 2021 Presents the

latest safety ratings, dealer prices, fuel economy, insurance premiums, maintenance costs, and tires of new model automobiles. [Lemon-Aid New Cars and Trucks 2011](#) Mar 24 2022 As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."
