Author, title, subject, series/report, and stock number indexes

Industry 4.0 for SMEs Apr 04 2020 This open access book explores the concept of Industry 4.0, which presents a considerable challenge for the production and service sectors. While digitization initiatives are usually integrated into the central corporate strategy of larger companies, smaller firms often have

problems putting Industry 4.0 paradigms into practice. Small and medium-sized enterprises (SMEs) possess neither the human nor financial resources to systematically investigate the potential and risks of introducing Industry 4.0. Addressing this obstacle, the international team of authors focuses on the development of smart manufacturing concepts, logistics solutions and managerial models specifically for SMEs. Aiming to provide methodological frameworks and pilot solutions for SMEs during their digital transformation, this innovative and timely book will be of great use to scholars researching technology management, digitization and small business, as well as practitioners within manufacturing companies. *Technical Manual* Jun 30 2022

Current Catalog Aug 28 2019 First multi-year cumulation covers six years: 1965-70.

Vittorino Da Feltre and Other Humanist Educators Jul 28 2019 Four short Latin treatises published between 1400 and 1460 define the humanist idea of education and form the heart of a book that has remained for almost seventy years the fundamental study of early Renaissance educational theory and practice.
