Your Guide to the National Parks Nov 12 2020 Winner of the National Outdoor Book Award. National Parks are some of the most beautiful and popular destinations in the United States. They're also vast expanses of largely undeveloped wilderness. To make the most of your next national park adventure, you'll want a good guide. This full-color travel guidebook is the ultimate tool to simplify your travel planning. Detailed maps highlighting popular attractions and trailheads help visualize your itinerary. Lodging, camping, and hiking tables make choosing where to stay and what trails to hike easy. Hiking is explored in depth, but you'll find details, including outfitter essentials, on all the most popular activities. Whether you're looking to raft the Grand Canyon, see Old Faithful erupt, climb Mount Rainier, or simply select the perfect place to lay back and stare at the stars, you'll find those details too. Tips and recommendations from the author help you decide when to visit and how to avoid crowds. Hundreds of lists put the best of America's Best Idea at your fingertips. A dozen suggested road trips, including hundreds of noteworthy stops beyond the parks, provide the building blocks for a trip of a lifetime. The completely updated third edition features more than 150 large maps and 100 easy-to-read tables. 550 new photos showcase our most scenic treasures before you set foot in them. When you do, you'll want to maximize time on your next national park adventure by planning it with the help of a good guide. Let this book be Your Guide to the National Parks.

Manhunter Aug 10 2020 THINK YOU KNOW THE SAS? THINK AGAIN... From no.1 bestselling SAS hero Chris Ryan, comes MANHUNTER: the first book in an explosive new series featuring Josh Bowman, a battle-worn Regiment soldier hand-picked to join a shadow unit within the SAS. When foreign governments act like gangsters, a new kind of SAS is needed. . . In London, assassins carry out a deadly chemical weapons attack at the royal wedding. All the signs point to a Kremlin-sanctioned hit. Their victim: a notorious mobster. 'The Cell' is a shadow unit within the SAS, dedicated to fighting global organised crime. In a world where the Russian government is the real mob, it's the job of the Cell to defend British interests at home and abroad. Only the elite are selected; only the very best will survive. For SAS staff sergeant Josh Bowman, whose young family was brutally murdered by an Albanian crime gang, it's a chance for revenge - and to bury his secret opioid addiction. But the Russians have only just begun. When the Cell uncovers a sinister plot against a British-backed tyrant in Africa, they are quickly drawn into a deadly race against time. Soon they find themselves fighting a terrifying enemy in a brutal fight to the death. Outnumbered, outgunned and with no military support, Bowman and his comrades are all that stand between Moscow and ultimate victory. . . Praise for SAS legend Chris Ryan: 'Ryan writes with the authority of a man familiar with every nuance of the regiment's tactics, training, weapons and equipment' - SUNDAY TIMES 'Nobody takes you to the action better than Ryan' - EVENING STANDARD 'Intelligent and enthralling' - FINANCIAL TIMES 'The action comes bullet-fast' - THE SUN 'Fearsome and fast-moving' - DAILY MAIL

Alpine Lakes Wilderness Dec 26 2021 100 hikes in the Alpine Lakes Wilderness, including the newly protected Middle Fork Snoqualmie Valley Mix of day hikes and classic backpacking routes Stunning, oversized full-color guide The lush Alpine Lakes Wilderness in Washington's Central Cascades contains a plethora of trails, rugged glacier-carved mountains, and more than 700 sparkling alpine lakes and ponds. Accessed via nearly 50 trailheads, more than 600 miles of trails offer hikers leisurely strolls along wooded creeks, climbs up mountain passes, or lunch spots next to glassy tarns. It is one of the most popular and beloved places for hikers in this region. The all-new guide, Alpine Lakes Wilderness, features a wide range of hikes that vary in difficulty, geography, and theme so that hikers of any age and skill level will find trails that fit their taste. Easy to use, the guide includes details on overnight permits, car-camping options near wilderness access points, detailed maps, elevation gain/ loss, and turn-by-turn mileage and directions.

Interesting historical background and natural history round out the trail descriptions.

Mountaineers Sep 10 2020 Celebrating a tradition of bravery, thirst for knowledge, and pursuit of glory, this ebook tells the stories of the most famous mountaineers in history and explores the climbs that they conquered. Mountaineers is filled with stirring tales of adventure and intriguing characters, from the Brits who insisted on hauling cases of vintage champagne up to Everest base camp in 1924, to the Italian Duke of the Abruzzi who took 10 iron bedsteads up Alaska's Malaspina glacier. It chronicles the stories of the pioneers who first conquered the heights of this planet, from Otzi the Iceman to Edmund Hillary, important scientific discoveries that were made along the way, and accounts of great bravery, fellowship, altruism, and humour in the face of adversity. The ebook features fact files for over 100 famous mountaineers and stunning photography of the mountains they scaled, and contains rare artefacts that were found on their journeys, previously unpublished photographs, and specially commissioned route maps to recreate history's greatest ascents. The book also charts the development of technology, equipment, and techniques from the tweed hacking jackets and pipe-smoking of the early mountaineers to the sophisticated kit being used today.

Zillertal Alps Jul 09 2020

Guide to Standard Floras of the World May 07 2020 This 2001 book provides a selective annotated bibliography of the principal floras and related works of inventory for vascular plants. The second edition was completely updated and expanded to take into account the substantial literature of the late twentieth century, and features a more fully developed review of the history of floristic documentation. The works covered are principally specialist publications such as floras, checklists, distribution atlases, systematic iconographies and enumerations or catalogues, although a relatively few more popularly oriented books are also included. The Guide is organised in ten geographical divisions, with these successively divided into regions and units, each of which is prefaced with a historical review of floristic studies. In addition to the bibliography, the book includes general chapters on botanical bibliography, the history of floras, and general principles and current trends, plus an appendix on bibliographic searching, a lexicon of serial abbreviations, and author and geographical indexes.

White Devils! «Monte Cervino» Alpine Ski Battalion 1941-1943 Jun 27 2019 The Monte Cervino Ski Battalion was certainly an exception in the poorly equipped Italian Armed Forces in the Second World War. Made up of highly specialized personnel - ski instructors and alpine guides - coming from the Alpine School of Aosta, the battalion received equipment that was decidedly superior to that of the average Italian soldiers: from camouflage suits to boots with vibram insulating rubber soles up to the number of MAB 38 submachine guns distributed in an unparalleled extent compared to other departments. Nicknamed by the Soviets Satanas Bielji "white devils" for their winter suits, the Monte Cervino men proudly belonged to the best unit of the Italian Royal Army, and the most decorated in relation to his strength: 4 Golden medals for military bravery, 43 Silver, 69 Bronze, 81 War Crosses; and Monte Cervino can be considered the best mountain unit not only of the Axis armies but in all probability in the entire world during the world war...

Mount Rainier: A Climbing Guide, 2nd Edition Feb 02 2020 * 41 principal routes and their variations, with aerial photos and route overlays * Extensive material on Rainier's unique weather, terrain, high altitude and glacier training opportunities, and more * Features sidebars on mountain history, Rainier personalities, and dramatic rescues One of author Mike Gauthier's primary duties as Lead Climbing Ranger for Mount Rainier National Park was advising climbing parties about what to expect on the mountain. Name any route on Rainier, and he can describe its rewards and specific challenges (he's summited Rainier more than 170 times during all seasons and under intense conditions). Whether you choose the classic Liberty Ridge route, the drama of Success Cleaver, or the rarely attempted Mowich Face, Gauthier provides all the details you'll need for a successful and enjoyable climb. This edition presents the information on logistics, regulations, and permits. It includes expanded material on understanding and surmounting Rainier's famed glaciers; tips on selecting a guide service; excellent mountaineering training sites around Rainier for those bound for the world's highest peaks; and bonus routes on adjacent Little Tahoma, Washington's third highest peak.

Adventure Tourism Apr 17 2021 Adventure tourism is a new, rapidly growing area at both practical and academic levels. Written at an introductory level, *Adventure Tourism* provides a basic background and covers commercial adventure tourism products across a range of adventure tourism sectors.

Alpine Mountain Guides Mar 29 2022 This book makes a contribution to mountaineering history. Almost all first ascents made in the Alps during the nineteenth century were led by professional mountain guides. Together they form a fascinating group of men who formed a close relationship with mountaineers, referred to as 'amateurs' in the true sense of the word, despite a great difference in their respective style of life. Many first ascents are described, first in the Alps then in the Caucasus, Himalaya, Andes and New Zealand, all mountain areas where Alpine Guides played a major role.

Cascade Alpine Guide: Rainy Pass to Fraser River Jun 19 2021 Comprehensive climbing approach, route guides to Washington's Cascades.

The Alpine guide Sep 03 2022

Voyages and Visions Mar 05 2020 A much-needed contribution to the expanding interest in the history of travel and travel writing, *Voyages and Visions* is the first attempt to sketch a cultural history of travel from the sixteenth century to the present day. The essays address the theme of travel as a historical, literary and imaginative process, focusing on significant episodes and encounters in world history. The contributors to this collection include historians of art and of science, anthropologists, literary critics and mainstream cultural historians. Their essays encompass a challenging range of subjects, including the explorations of South America, India and Mexico; mountaineering in the Himalayas; space travel; science fiction; and American post-war travel fiction. *Voyages and Visions* is truly interdisciplinary, and essential reading for anyone interested in travel writing. With essays by Kasia Boddy, Michael Bravo, Peter Burke, Melissa Calaresu, Jesus Maria Carrillo Castillo, Peter Hansen, Edward James, Nigel Leask, Joan-Pau Rubies and Wes Williams.

Alpine Climbing Sep 22 2021 **CLICK HERE** to download the chapter "The Alpine Environment" from *Alpine Climbing* * For climbers who know the basics and are ready to venture at higher altitudes * Written by longtime guides and climbing instructors certified by the American Mountain Guide Association (AMGA) * Recommended by the AMGA * Teaches situational thinking and learning as well as technique This intermediate-level guide addresses tools, skills, and techniques used in alpine terrain including rock, snow, ice, and glaciers at moderate altitude -- approximately 5000 meters (16,000 feet) and lower. The technical protection systems are covered, of course. But 30 years of alpine climbing experience has convinced the authors that mastery -- and safety -- lie in the far more difficult task of knowing exactly which techniques to use, where and when. Therefore, they teach step-by-step decision-making skills, providing scenarios, checklists, and self-posed questions to inform the decision process. *Alpine Climbing* assumes some prior knowledge, primarily in rock climbing skills and techniques. Basic knots, belaying, rappelling, building rock anchors, leading, placing rock protection, and movement skills on rock: variations of these skills that are of particular value in the alpine environment are addressed in this book.

The Unofficial Guide to Adventure Travel in Alaska Jan 15 2021 Providing a sensible, objective, consumer's guide to travel, these easy-to-use travel handbooks provide useful evaluations of local hotels, attractions, and restaurants in all price ranges, honest advice on local attractions that are worth the time and money, detailed maps, tips on special events and festivals, and extensive information on local shopping, sports, nightlife, and other activities.

Bolivia Jul 29 2019 The only English-language climbing guide available to Bolivia's mountains, this is also the first to cover all four of its ranges. Major and alternative routes on 37 peaks are thoroughly described and are accompanied by clear topographic maps and photographs. Includes a short history of climbing in Bolivia.

Island Alpine Select Nov 24 2021 *Island Alpine Select* describes in detail the alpine scrambles, rock and ice climbing routes on 70 of Vancouver Island's finest mountain peaks. With rich, high resolution photographs, topographic maps, detailed access & route descriptions along with select images from some of the Island's classic climbs, *Island Alpine Select* digital edition is an indispensable resource for Island alpinists.

Alaska Adventure Guide Sep 30 2019 The author has worked to answer all your questions about travel and recreation in a state so remote. This guide attempts to target your interests and save you time, money, and effort so that nothing is wasted during your trip. Because Alaska is so big and your options so varied, the guide is organized so you can zero in on the activity or activities that appeal to you most. Thirteen chapters focus solely on adventure travel, each devoted to a single activity. The five regional chapters that follow focus primarily on the basics in a given area of the state: getting around, shopping, lodging, dining, and entertainment. Once you've chosen the adventure of your dreams, you can go to the appropriate regional chapter to get the scoop on the best places in the vicinity to stay, eat, buy gear, rent a car, and learn about local culture and history. Outdoor travelers also are likely independent travelers. A multitude of companies offer exciting-sounding jaunts to scenic places all over the state, but many of these outfits work only with tour providers, such as cruise-ship operators, to obtain large numbers of clients per trip--thus excluding people who wish to travel on their own. In this guide, all our listings are available to independent travelers as well as those in tour groups. The objective is not to provide the most information about destinations or attractions, but, rather, the most useful information. The guide is opinionated, and for good reason. Any destination or outfitter listed here has made the cut by proving itself a wonderful place to visit or a reliable company with which to do business. If, for example, you want to learn more about sea kayaking in Alaska, you will not be supplied with every operation in the business--and believe us, there are many of them competing for your dollars. What you will get is a select assortment of those we consider best, and why. After all, isn't the point of a guidebook to help you make the most informed choices?

Cascade Alpine Guide, Vol 1: Columbia River to Stevens Pass Aug 02 2022 * Cascades climbing routes -- the guidebooks relied on for more than 25 years * Northwest climbing legend Fred Beckey has summited and explored hundreds of Cascade peaks * Hand-drawn maps and photos with route overlays, as well as approach information This is the volume one of three that Fred Beckey wrote for climbing in the Cascades. His *Cascade Alpine Guide* series is considered classic information from one of the nation's godfathers of Western climbing. *Columbia River to Stevens Pass* features expert information on more than 300 climbing and high routes in the Cascades, including Mount Rainier. Here you'll find geographical, historical, and geological overviews of the majestic North Cascades region, plus important tips on safety and backcountry usage and enough technical and grade information to make clear exactly what type of route you are embarking upon. Without a doubt, this exhaustive resource should be a staple in every serious mountaineer's collection.

Introduction To The Alpine Guide, New Edition May 31 2022

Mountaineering Tourism Jun 07 2020 In May 1993 the British Mountaineering Council met to discuss the future of high altitude tourism. Of concern to attendees were reports of queues on Everest and reference was made to mountaineer Peter Boardman calling Everest an 'amphitheater of the ego'. Issues raised included environmental and social responsibility and regulations to minimize impacts. In the years that have followed there has been a surge of interest in climbing Everest, with one day in 2012 seeing 234 climbers reach the summit. Participation in mountaineering tourism has surely escalated beyond the imagination of those who attended the meeting 20 years ago. This book provides a critical and comprehensive analysis of all pertinent aspects and issues related to the development and the management of the growth area of mountaineering tourism. By doing so it explores the meaning of adventure and special reference to mountain-based adventure, the delivering of adventure experience and adventure learning and education. It further introduces examples of settings (alpine environments) where a general management framework could be applied as a baseline approach in mountaineering tourism development. Along with this general management framework, the book draws evidence from case studies derived from various mountaineering tourism development contexts worldwide, to highlight the diversity and uniqueness of management approaches, policies and practices. Written by leading academics from a range of disciplinary backgrounds, this insightful book will provide students, researchers and academics with a better understanding of the unique aspects of tourism management and development of this growing form of adventure tourism across the world.
