Buying and Selling Civil War Memory in Gilded Age America Oct 11 2020 Buying and Selling Civil War Memory explores the ways in which Gilded Age manufacturers, advertisers, publishers, and others commercialized Civil War memory.

Advertisers used images of the war to sell everything from cigarettes to sewing machines; an entire industry grew up around uniforms made for veterans rather than soldiers; publishing houses built subscription bases by tapping into wartime loyalties; while old and young alike found endless sources of entertainment that harkened back to the war. Moving beyond the discussions of how Civil War memory shaped politics and race relations, the essays assembled by James Marten and Caroline E. Janney provide a new framework for examining the intersections of material culture, consumerism, and contested memory in the everyday lives of late nineteenth-century Americans. Each essay offers a case study of a product, experience, or idea related to how the Civil War was remembered and memorialized. Taken together, these essays trace the ways the buying and selling of the Civil War shaped Americans' thinking about the conflict, making an important contribution to scholarship on Civil War memory and extending our understanding of subjects as varied as print, visual, and popular culture; finance; and the histories of education, of the book, and of capitalism in this period. This highly teachable volume presents an exciting intellectual fusion by bringing the subfield of memory studies into conversation with the literature on material culture. The volume's contributors include Amanda Brickell Bellows, Crompton B. Burton, Kevin R. Caprice, Shae Smith Cox, Barbara A. Gannon, Edward John Harcourt, Anna Gibson Holloway, Jonathan S. Jones, Margaret Fairgrieve Milanick, John Neff, Paul Ringel, Natalie Sweet, David K. Thomson, and Jonathan W. White.

Iowa Stereographs Nov 23 2021 At one time no American parlor was complete without a stereograph viewer and a stack of dual-image cards. People toured the world in three dimensions through the viewer's lenses and reveled in scenes from their own regions. Stereoscopic vision changed the way people saw the world. Using Iowa as a backdrop for exploring the golden age of this phenomenon, the authors of this richly illustrated book, which includes a handy stereo viewer, present an insider's look at nineteenth-century America. The remnants of this once popular pictorial tradition reveal an amazing record of the intricacies of yesterday's daily life. Unparalleled as documents recording this era, these 220 stereographs draw the viewer into the everyday life of early Iowans - into countrysides, main streets, living rooms, and parades as well as the extraordinary devastation of train wrecks and tornadoes and the curiously spectacular Sioux City Corn Palace.

The Game Dec 01 2019 This traditional-style murder mystery takes place in the unlikely setting of a hospital where an innocuous game, which medical staff play to hone their professional skills, provides the stimulus for murder. When Katlin's long-time friend dies mysteriously just as she is to be discharged from the hospital, Katlin and her colleague Palmer start stalking clues. Soon, they become convinced that a killer is taking advantage of the hospital environment to cover up deadly crime and using techniques that might have been learned during the game. But why would a medical professional, trained to alleviate physical and mental health, decide to murder seemingly random hospital patients? And why is this hospital the killer's target? Is the killer cold-blooded or suffering from some sort of delusion? With the whole hospital's staff as potential suspects, this whodunit is sure to keep the amateur sleuths guessing.
