*Open Book* Aug 27 2019 *Open Book: The Inside Track to Law School Success, 2E* is a book that every JD and LLM law student needs to read, either before classes start or as they get going in their 1L year. Now in an expanded second edition, the book explains in a clear and easygoing, conversational manner what law professors expect from their students both in classes and exams. The authors, award-winning teachers with a wealth of classroom experience, give students an inside look at law school by explaining how, despite appearances to the contrary, classes connect to exams and exams connect to the practice of law. *Open Book* introduces them to the basic structure of our legal system and to the distinctive features of legal reasoning. To prepare students for exams, the book explains in clear and careful detail what exams are designed to test. It then devotes a single, clearly written chapter to each step of the process of answering exams. It also contains a wealth of material, both in the book and digitally, on preparing for exams. Finally, and perhaps most importantly, *Open Book* comes with a free suite of 18 actual law school exams in Civil Procedure, Constitutional Law, Contracts, Criminal Law, Property and Torts, written and administered by law professors. These exams include not only questions, but: (1) annotations from the professors explaining what they were looking for; (2) model answers written by the professors themselves; and (3) actual student answers, with professor comments that explain why certain answers were stronger or weaker. As *Open Book* explains, there is no better way to prepare for exams than by practicing, and these unique materials will enable students to get the most out of their pre-exam practice.

**Combatants of Muslim Origin in European Armies in the Twentieth Century** Apr 03 2020 During the two World Wars that marked the 20th century, hundreds of thousands of non-European combatants fought in the ranks of various European armies. The majority of these soldiers were Muslims from North Africa, Sub-Saharan Africa, Central Asia, or the Indian Subcontinent. How are these combatants considered in existing historiography? Over the past few decades, research on war has experienced a wide-reaching renewal, with increased emphasis on the social and cultural dimensions of war, and a desire to reconstruct the experience and viewpoint of the combatants themselves. This volume reintroduces the question of religious belonging and practice into the study of Muslim combatants in European armies in the 20th century, focusing on the combatants' viewpoint alongside that of the administrations and military hierarchy.

**An Introduction to African Philosophy** May 17 2021 Organized topically rather than historically, this book provides an excellent introduction to the subject of African Philosophy. Samuel Oluoch Imbo synthesizes the ideas of key African philosophers into an accessible narrative. The author focuses on five central questions: What are the definitions of African philosophy? Is ethno-philosophy really philosophy? What are the dangers of an African philosophy that claims to be 'unique'? Can African philosophy be done in foreign languages such as English and French? Are there useful ways to make connections between African philosophy, African American philosophy, and women's studies? By making cross-disciplinary and transnational connections, Imbo stakes out an important place for African philosophy. Imbo's book is an invaluable introduction to this dynamic and growing area of study.

**The Ultimate Guide to the UBE (Uniform Bar Exam) Redesigned** Dec 12 2020 Addressing the relative newness of the UBE, The Ultimate Guide to the UBE provides a detailed approach to the exam, utilizes real students' past bar exam answers (including real bar exam scores), and includes commentary from expert contributors for added insight and perspective on how students can improve their own exam writing scores. In the past decade the UBE has gone from being adopted by merely a few jurisdictions to over 40, including Massachusetts, New York, Illinois, and Texas, and soon Pennsylvania in July of 2022. This encompasses a large percentage of students taking the Bar Exam. It also means that many students, as well as bar prep professionals, have questions about the UBE. We seek to provide one guide that addresses everything anyone would want to know about the UBE, most importantly, how to prepare for it. Melissa Hale, and Antonia (Toni) Miceli, and Tania Shah are experts in bar exam preparation, each having taught in the field for over a decade. As the UBE becomes more prevalent, we encounter more and more people with questions about how the UBE works and how best to prepare for each section of the UBE. This book is intended to be a "one-stop shop" for all things UBE! Professors and students will benefit from: Addressing the relative newness of the UBE, this guide provides a step-by-step process for tackling each section of the exam, utilizing real students' past bar exam answers (including real bar exam scores), and employing expert contributors' commentary for added perspective. The straightforward approach of this book appeals to students, and includes: outlines, charts, easily digestible content, and good humor to engage students in material that might otherwise seem dry or overwhelming. Above all, students want to see what an actual exam answer looks like, not just be told how to write the "perfect" (and mostly impossible) essay answer. In the Ultimate Guide to the UBE, students can see what real bar exam takers did under timed conditions. They can read expert commentary on real bar exam answers, and step into the shoes of a bar exam grader by critiquing real bar exam answers themselves. Students can see, firsthand, what separates a score of 1 from a score of 3 from a score of 6 out of 6, and learn how to push their own score up the grading scale. Memorizing rules separate from the essay-writing process is not a winning strategy; practicing writing an essay while looking up the rules enables students to hone their analysis skills and learn the rules. The online appendices provide all the substantive law students need to complete the questions in this book, allowing students to focus on the skill development piece of bar review, rather than guessing the applicable rule.

**Mother to Mother** Feb 11 2021 Sindiwe Magona's novel Mother to Mother explores the South African legacy of apartheid through the lens of a woman who remembers a life marked by oppression and injustice. Magona decided to write this novel when she discovered that Fulbright Scholar Amy Biehl, who had been killed while working to organize the nation's first ever democratic elections in 1993, died just a few yards away from her own permanent residence in Guguletu, Capetown. She then learned that one of the boys held responsible for the killing was in fact her neighbor's son. Magona began to imagine how easily it might have been her own son caught up in the wave of violence that day. The book is based on this real-life incident, and takes the form of an epistle to Amy Biehl's mother. The murderer's mother, Mandisi, writes about her life, the life of her child, and the colonized society that not only allowed, but perpetuated violence against women and impoverished black South Africans under the reign of apartheid. The result is not an apology for the murder, but a beautifully written exploration of the society that bred such violence.

**My Children! My Africa! (TCG Edition)** Nov 30 2019 The search for a means to an end to apartheid erupts into conflict between a black township youth and his "old-fashioned" black teacher.

**The High School Principal's Calendar** Jun 25 2019 This book has been developed for both new and experienced principals; it lays out everyday challenges and administrative necessities to help principals plan strategically for the academic year. This work provides a month-to-month guide to make the school year run smoothly from opening to closing. Chapters cover key tasks for each month beginning in July: overview of tasks;

communications--letters, memos, correspondence, media relationships; planning--workshops, orientations, field trips, fundraising activities; personnel--assignments, schedules, rosters, tenure recommendations; and checklists to monitor progress with an assortment of tasks for each month. These checklists offer flexibility for modification, and the monthly calendar helps busy administrators avoid reinventing the wheel each year. Appendices include sample documents, teachers' manual index, and various memos covering fundraising, building security, class elections, locker cleanup, weekly memo, orientation agenda, and emergency drills, among others. Investigation of Failure of the SEC to Uncover Bernard Madoff's Ponzi Scheme Oct 29 2019

The American Military Mission to China, 1941-1942 Jun 17 2021 This is an overview of America's first effort in military aid to a foreign sovereign nation at a time when Europe was engaged in open warfare, Asia was facing a series of military confrontations, and most of the world thought global conflagration was inevitable. The work offers insight into the impact of war in Burma, a backwater of World War II, and examines events that result when great powers go to great lengths to further their own goals. The work also examines disagreements among China, the United Kingdom, the United States and Japan, and shows the evolution of aid provision to another country and changing expectations as new information arises.

**The Intelligence War in Latin America, 1914-1922** Sep 08 2020 World War I did not bypass Latin America. Within days of the war's outbreak, European belligerents mobilized intelligence assets and secret diplomacy to compete for Latin America's allegiances and resources. This intelligence war entangled all of the American republics and even Japan. Dreary consular offices from the Rio Grande to the Straits of Magellan were abruptly thrust into covert activities, trafficking in fugitives, running contraband and conducting sabotage. Revolutionary and counter-revolutionary movements, big oil, international banks and businesses were also drawn in. Drawing on long-classified U.S. intelligence documents, this narrative of the Latin American intelligence war reveals the complexity and chaos behind the placid veneer of wartime Pan-America. The author connects the dots between Mexico City, Buenos Aires, Guatemala City, Lima, Havana, Santiago, Rio de Janeiro, Berlin, London, Washington, Tokyo and dozens of safe houses, front companies, consulates, legations and headquarters in between. Scores of unrecognized veterans of the intelligence war are revealed.
