*Governing China's Multiethnic Frontiers* Jan 25 2022 Leading scholars examine the Chinese government's administration of its ethnic minority regions, particularly border areas where ethnicity is at times a volatile issue and where separatist movements are feared. Chapters focus on the Muslim Hui, multiethnic southwest China, Inner Mongolia, Xinjiang, and Tibet. Together these studies provide an overview of government relations with key minority populations, against which one can view evolving dialogues and disputes.

Information Control Problems in Manufacturing Technology 1989 Dec 24 2021 The Symposium presented and discussed the latest research on new theories and advanced applications of automatic systems, which are developed for manufacturing technology or are applicable to advanced manufacturing systems. The topics included computer integrated manufacturing, simulation and the increasingly important areas of artificial intelligence and expert systems, and

applied them to the broad spectrum of problems that the modern manufacturing engineer is likely to encounter in the design and application of increasingly complex automatic systems.
