Beyond the Archives Oct 11 2020 This collection of highly readable essays reveals that research is not restricted to library archives. When researchers pursue information and perspectives from sources beyond the archives—from existing people and places—they are often rewarded with unexpected discoveries that enrich their research and their lives. Beyond the Archives: Research as a Lived Process presents narratives that demystify and illuminate the research process by showing how personal experiences, family history, and scholarly research intersect. Editors Gesa E. Kirsch and Liz Rohan emphasize how important it is for researchers to tap into their passions, pursuing research subjects that attract their attention with creativity and intuition without limiting themselves to traditional archival sources and research methods. Eighteen contributors from a number of disciplines detail inspiring research opportunities that led to recently published works, while offering insights on such topics as starting and finishing research projects, using a wide range of types of sources and methods, and taking advantage

of unexpected leads, chance encounters and simple clues. In addition, the narratives trace the importance of place in archival research, the parallels between the lives of research subjects and researchers, and explore archives as sites that resurrect personal, cultural, and historical memory. Beyond the Archives sheds light on the creative, joyful, and serendipitous nature of research, addressing what attracts researchers to their subjects, as well as what inspires them to produce the most thorough, complete, and engaged scholarly work. This timely and essential volume supplements traditional-method textbooks and effectively models concrete practices of retrieving and synthesizing information by professional researchers.

And she isn't about to let the undeniably gorgeous Viscount Rohan distract her. They have nothing in common but an enemy, the newly reformed Heavenly Host, whose mysterious leader threatens their nearest and dearest, and the two mismatched combatants have no choice but to band together, or lose those they held dearest. Losing their hearts in the process.

The Counts of Laval Dec 25 2021 The Laval family were one of the most important families in late medieval France, rising to a position of unsurpassed eminence by the mid sixteenth century. Yet, at the very point where they reached this position of unrivalled importance, all was put at risk by the dual challenges of dynastic failure and the Reformation. The vagaries of dynastic failure threatened their hard won success and these problems were compounded by the decision of crucial members of the family to support Protestantism in the middle of the century. By the end of the sixteenth century the fortunes of the family were in ruins and the brief eminence of Laval in western France was over. This monograph offers a fresh look at several of the critical questions facing historians of late medieval and early modern France. It re-examines the clientage of a rising and enterprising family and explores the cultural patronage of a noble court. The book also provides a new insight into the nature of noble Protestantism, notably analysing the connections between nobles, patterns of family loyalty and religious conviction. Finally, it considers the events of wars of religion in western France from the perspective of a noble leadership that simultaneously played a vital role in sustaining the cause and did much to undermine it. This latter issue is examined in particular through the analysis of the relationship between the houses of Laval and Rohan, two Protestant families with shared loyalties but with rival dynastic ambitions. This study is based on a complete re-examination of the archive base in both Paris and the west of France and in English archives. For many centuries the destruction of the archives of the family of Laval during the French Revolution has prevented historians from undertaking a serious study of the family. Indeed, this book is the first monograph to be published on the Comtes de Laval since the manuscript volume written by Le Blanc de La Vignole in the seventeenth century. At the same time it engages with the historiography of both French and Anglo-Saxon historiographical traditions.

Manuscripts, Market and the Transition to Print in Late Medieval Brittany Nov 23 2021 Manuscripts, Market and the Transition to Print in Late Medieval Brittany surveys the production and marketing of non-monastic manuscripts and printed books over 150 years in late medieval Brittany, from the accession of the Montfort family to the ducal crown in 1364 to the duchy's formal assimilation by France in 1532. Brittany, as elsewhere, experienced the shift of manuscript production from monasteries to lay scriptoria and from rural settings to urban centers, as the motivation for copying the word in ink on parchment evolved from divine meditation to personal profit. Through her analysis of the physical aspects of Breton manuscripts and books, parchment and paper, textual layouts, scripts and typography, illumination and illustration, Diane Booton exposes previously unexplored connections between the tangible cultural artifacts and the society that produced, acquired and valued them. Innovatively, Booton's discussion incorporates archival research into the prices, wages and commissions associated with the manufacture of the works under discussion to shed new light on their economic and personal value.

Reckless Mar 28 2022 Charlotte Spenser, straight-laced spinster with a search for knowledge, thinks observing an orgy from a safe distance

is an excellent idea. Adrian Rohan, black sheep of an already infamous family, has always encouraged female education, and he's more than happy to give her hands-on experience. They're so mismatched it's a wonder they don't explode. He's everything bad, and she can't resist him. What could possibly go wrong?

Status, Power, and Identity in Early Modern France Jan 26 2022 In Status, Power, and Identity in Early Modern France, Jonathan Dewald explores European aristocratic society by looking closely at one of its most prominent families. The Rohan were rich, powerful, and respected, but Dewald shows that there were also weaknesses in their apparently secure position near the top of French society. Family finances were unstable, and competing interests among family members generated conflicts and scandals; political ambitions led to other troubles, partly because aristocrats like the Rohan intensely valued individual achievement, even if it came at the expense of the family's needs. Dewald argues that aristocratic power in the Old Regime reflected ongoing processes of negotiation and refashioning, in which both men and women played important roles. So did figures from outside the family—government officials, middle-class intellectuals and businesspeople, and many others. Dewald describes how the Old Regime's ruling class maintained its power and the obstacles it encountered in doing so.

And while his dark seduction appalls the pure and impoverished Elinor Harriman, she finds herself intrigued and secretly drawn to the man behind the desire.
