Mad Dogs, Englishmen, and the Errant Anthropologist Apr 15 2021 According to Raybeck, the solitary dictum that best characterizes fieldwork is Things go awry. In this spirited account of his time spent in Southeast Asia, Raybeck describes several

adventures and misadventures involving field research, as well as the understanding, humility and bruises that these experiences leave behind. Since fieldwork is situated, Raybecks treatment also includes rich descriptions of Kelantanese society and culture, addressing such topics as kinship, linguistics, gender

relations, economics, and political structures. Through the lively pages of this narrative, readers gain insight into the human dimension of the fieldwork undertaking, a sense of how the anthropologist builds rapport in a research setting, and how reliable information is obtained.

The Social Cancer May 29 2022 Filipino national hero Jose Rizal wrote *The Social Cancer* in Berlin in 1887. Upon his return to his country, he was summoned to the palace by the Governor General because of the subversive ideas his book had inspired in the nation. Rizal wrote of his consequent persecution by the church: "My book made a lot of noise; everywhere, I am asked about it. They wanted to anathematize me ['to excommunicate me'] because of it ... I am considered a German spy,

an agent of Bismarck, they say I am a Protestant, a freemason, a sorcerer, a damned soul and evil. It is whispered that I want to draw plans, that I have a foreign passport and that I wander through the streets by night ..."

Making the News Jul 07 2020 Media attention can play a profound role in whether or not officials act on a policy issue, but how policy issues make the news in the first place has remained a puzzle. Why do some issues go viral and then just as quickly fall off the radar? How is it that the media can sustain public interest for months in a complex story like negotiations over Obamacare while ignoring other important issues in favor of stories on "balloon boy?" With *Making the News*, Amber Boydstun offers an

eye-opening look at the explosive patterns of media attention that determine which issues are brought before the public. At the heart of her argument is the observation that the media have two modes: an “alarm mode” for breaking stories and a “patrol mode” for covering them in greater depth. While institutional incentives often initiate alarm mode around a story, they also propel news outlets into the watchdog-like patrol mode around its policy implications until the next big news item breaks. What results from this pattern of fixation followed by rapid change is skewed coverage of policy issues, with a few receiving the majority of media attention while others receive none at all. Boydston documents this systemic explosiveness and skew through analysis of media coverage across policy issues, including in-depth looks at the waxing and waning of coverage around two issues: capital punishment and the “war on terror.” Making the News shows how the seemingly unpredictable day-to-day decisions of the newsroom produce distinct patterns of operation with implications—good and bad—for national politics.

Writing without Teachers Feb 23 2022 In *Writing Without Teachers*, well-known advocate of innovative teaching methods Peter Elbow outlines a practical program for learning how to write. His approach is especially helpful to people who get "stuck" or blocked in their writing, and is equally useful for writing fiction,

poetry, and essays, as well as reports, lectures, and memos. The core of Elbow's thinking is a challenge against traditional writing methods. Instead of editing and outlining material in the initial steps of the writing process, Elbow celebrates non-stop or free uncensored writing, without editorial checkpoints first, followed much later by the editorial process. This approach turns the focus towards encouraging ways of developing confidence and inspiration through free writing, multiple drafts, diaries, and notes. Elbow guides the reader through his metaphor of writing as "cooking:" his term for heating up the creative process where the subconscious bubbles up to the surface and the writing gets good. 1998 marks the twenty-fifth anniversary of *Writing Without Teachers*. In this edition, Elbow reexamines his program and the subsequent influence his techniques have had on writers, students, and teachers. This invaluable guide will benefit anyone, whether in the classroom, boardroom, or living room, who has ever had trouble writing.

Anthem Aug 08 2020 My happiness is not the means to any end. It is the end. It is its own goal. It is its own purpose. Anthem is a dystopian fiction novella by Ayn Rand, written in 1937 and a clear predecessor to her later masterpieces. The Fountainhead and Atlas Shrugged. In Anthem, Rand examines a frightening future in which individuals have no name, no independence, and no values. Equality 7-2521 lives in the dark ages of the future where all decisions are made by committee, all people live in collectives, and all traces of individualism have been wiped out. Despite such a restrictive environment, the spark of individual thought and freedom still burns in him--a passion which he has been taught to call sinful. In a purely egalitarian world, Equality 7-2521 dares to stand apart from the herd--to think and choose for himself, to discover electricity, and to love the woman of his choice. Now he has been marked for death for committing the ultimate sin. In a world where the great "we" reign supreme, he has rediscovered the lost and holy word--"I." Now, in this dazzling collection of nine entirely original essays, written with a rare combination of give and sharpness, wit and fearlessness, she delves into the forces that warp our vision, demonstrating

an unparalleled stylistic potency and critical dexterity. Trick Mirror is an enlightening, unforgettable trip through the river of self-delusion that surges just beneath the surface of our lives. This is a book about the incentives that shape us, and about how hard it is to see ourselves clearly through a culture that revolves around the self. In each essay, Tolentino writes about a cultural prism: the rise of the nightmare social internet; the advent of scamming as the definitive millennial ethos; the literary heroine’s journey from brave to blank to bitter; the punitive dream of optimization, which insists that everything, including our bodies, should become more efficient and beautiful until we die. Gleaming with Tolentino’s sense of humor and capacity to elucidate the impossibly complex in an instant, and marked by her desire to treat the reader with profound honesty, Trick Mirror is an instant classic of the worst decade yet. Facilitating Reflective Learning In Higher Education Mar 27 2022 This revised edition includes the most current thinking on reflective learning, as well as stories from academics and students that bring to life the practical impact of reflection in action. Based on sound theoretical concepts, the authors offer a range of solutions for different teaching situations, taking into account factors such as group size, physical space, and technology. They also offer facilitation rather than traditional teaching methods as a productive and useful skill that helps teachers and encourages students to interact and develop reflexive skills that can be used beyond their student years.

Active Reviewing Jan 25 2022 If you want to help people learn from activities, exercises or experiences, this book is for you. This book fills a gap; it is the gap between doing an activity and learning from it. Plenty of books describe activities that are good for icebreaking, for team-building, for project management or for cross-cultural understanding, etc. A few of these books do give advice about reviewing (or debriefing) the activities, and 90% of the times it reads: "Here are some questions you can ask

...". How's that for boring and/or limiting? The result of such advice is that reviews are often dull and they dwell on what went wrong. When reading, they give off a feeling of discomfort. But why is that? Well, one of the reasons is because the same people speak up all the time. And that bores and might even annoy the rest of the participants. Thus, reviewing gets a bad name and people just want the review to finish as quickly as possible so that they can get on with the next activity. This is a rare book for two reasons: It is about reviewing (How many books have you come across on this subject?) It is about reviewing actively.(Which makes it not just rare, but unique.) With the help of this book, you can make reviews at least as engaging as the activities you are reviewing. No more discomfort. No more unwanted silences. No more superficial reviews. Just engaging and practical ways to help people learn from experience! How does that sound for a change?

Discovering Wes Moore Aug 27 2019 For fans of *The Wire* and *Unbroken* comes a story of two fatherless boys from Baltimore, both named Wes Moore. One is in prison, serving a life sentence for murder. The other is a Rhodes Scholar, an army veteran, and an author whose book is being turned into a movie produced by Oprah Winfrey. The story of "the other Wes Moore" is one that the author couldn't get out of his mind, not since he learned that another boy with his name—just two years his senior—grew up in the same Baltimore

neighborhood. He wrote that boy—now a man—a letter, not expecting to receive a reply. But a reply came, and a friendship grew, as letters turned into visits and the two men got to know each other. Eventually, that friendship became the inspiration for *Discovering Wes Moore*, a moving and cautionary tale examining the factors that contribute to success and failure—and the choices that make all the difference. Two men. One overcame adversity. The other suffered the indignities of poverty. Their stories are chronicled in *Discovering Wes Moore*, a book for young people based on Wes Moore's bestselling adult memoir, *The Other Wes Moore*. Includes an 8-page photo insert. Praise for *Discovering Wes Moore* "Moore wisely opens the door for teens to contemplate their own answers and beliefs, while laying out his own experiences honestly and openly."—Publishers Weekly "He argues earnestly and convincingly that young people can overcome the obstacles in their lives when they make the right choices and accept the support of caring adults."—Kirkus Reviews **Stuff I've Been Feeling Lately** May 17 2021 Structured like an old-school mix-tape, *Stuff I've Been Feeling Lately* is Alicia Cook's lyric message to anyone who has dealt with addiction. "Side A" touches on all aspects of the human condition: life, death, love, trauma, and growth. "Side B" contains haunting black-out remixes of those poems.

Getting Culture Nov 30 2019 How do we educate our students about cultural diversity

and cultural differences, and eliminate cultural ignorance, stereotyping, and prejudice? What are the conceptual issues involved in reaching this goal? How can we integrate these perspectives in disciplinary and diversity courses, and the curriculum? This book is a resource for answering these questions. Within the framework of current scholarship and discussion of essential concepts, it offers practical techniques, and empirically proven "best practices" for teaching about diversity. The book opens with a conceptual framework, covering such issues as distinguishing teaching to a diverse audience from teaching about diversity and contrasting the incorporation of culture across the curriculum with tokenistic approaches. Subsequent chapters identify classroom practices that can optimize students' learning, especially those from culturally diverse backgrounds; describe feminist principles of education that promote learning for all students; and address principles of effective on-line instruction for diverse populations. The book is intended for faculty integrating diversity into existing courses, and for anyone creating courses on diversity. The ideas and suggestions in the text can be incorporated into any class that includes a discussion of diversity issues or has a diverse student enrollment. The contributors offer pragmatic and tested ways of overcoming student misconceptions and resistance, and for managing emotional responses that can be aroused by the discussion of diversity. The

editors aim to stimulate readers' thinking and inspire fresh ideas. The book further provides teachers of diversity with a range of effective exercises, and attends to such issues as teacher stress and burnout. This book can also serve to inform and guide department chairs and other administrators in the design and implementation of diversity initiatives.

To Kill a Mockingbird Apr 27 2022 Voted America's Best-Loved Novel in PBS's The Great American Read Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, *To Kill a Mockingbird* has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

Lord of Opium May 05 2020 Matt has always been nothing but a clone - an exact replica, grown from a strip of old El Patron's skin. Now, age fourteen, Matt suddenly finds himself thrust into the position of ruling over his own

country, *Opium*, on the one-time border between the US and Mexico, stretching from the ruins of San Diego to the ruins of Matamoros. But while *Opium* thrives, the rest of the world has been devastated by ecological disaster... and hidden somewhere in *Opium* is the cure. And that isn't all that's hidden within the depths of *Opium*. Matt is haunted by the ubiquitous army of eejits, zombie-like workers harnessed to the old El Patron's sinister system of drug growing... people stripped of the very qualities which once made them human. Matt wants to use his newfound power to help stop the suffering, but he can't even find a way to smuggle his childhood love Maria across the border and into *Opium*. Instead, his every move hits a roadblock - both from the traitors that surround him and from a voice within himself. For who is Matt really but the clone of an evil, murderous dictator?

Managing Conflict in a World Adrift Jan 31 2020 The eagerly anticipated follow up to Leashing the Dogs of War. In the midst of a global political shift where power moves from central institutions to smaller, more disbursed units, another landmark text edited by Chester A. Crocker, Fen Osler Hampson and Pamela Aall provides essential insights and practical guidance. In Managing Conflict in a World Adrift, 40 of the world's leading international affairs analysts examine the relationship between political, social or economic change and the outbreak and spread of conflict. They then consider what this means for conflict management. This panoramic study is the latest volume in a series of titles on conflict management edited by Crocker, Hampson and Aall and follows up on their seminal work Leashing the Dogs of War (2007). For more than a decade, this series of titles has been the definitive resource for students and practitioners of conflict management who want a better understanding of the most contemporary thinking about what causes conflict and how to prevent and manage it.

Manifesto for Silence Oct 10 2020 This book makes an urgent demand for silence. The ability to think, to reflect, and to create are all

highly dependent on regular access to silence. Yet in today's noisy, 24/7 society silence and quiet are under threat. And the business world only makes this worse with cynical marketing strategies abusing the power of noise: ever-

diminishing oases of calm are hard to find. Stuart Sim argues that we need more, not less, silence. He explains why silence matters, where it matters--in our environment, in religion, philosophy, the arts, literature and science -

and why the human race will suffer if we do not make space for it. The confrontation between the politics of noise and the politics of silence affects all of us profoundly: we cannot stay neutral on this issue.
