The Supply Chain Differentiation Guide Oct 04 2020 The importance of supply chain management has increased over the last few decades. Today, entire supply chains are competing with each other instead of individual companies. As such, supply chain management has become a way for companies to set themselves apart from competing companies and their supply chains. Interestingly, supply chain management mainly focuses on efficiency-oriented topics rather than effectiveness-driven issues, in particular the design of supply chains from manufacturing sites downstream, instead of upstream from the customer. The Supply Chain Differentiation Guide offers a modern approach to

supply chain management. While for many years “one-size-fits-all” approaches to supply chain management were very common, the current efforts of managers and academics alike focus on the simultaneous management of multiple supply chains. Despite the interest of the business sector in the management of multiple supply chains, academia has largely neglected this topic to date. The Supply Chain Differentiation Guide addresses this shortcoming, introducing both established and cutting-edge management methods to the context of supply chain differentiation and providing inspirations for how to improve corporate operations.

Your Goal Guide Jun 19 2019 While most goal-setting books focus on helping people achieve their goals, only Your Goal Guide starts with that first, crucial step: helping professionals figure out what it is they actually want. In this book, author Debra Eckerling take readers through The D*E*B Method, her brainstorming and task-based system. It's a roadmap for setting goals, and then creating a plan to achieve them. D*E*B stands for: Determine Your Mission, Explore Your Options, Brainstorm Your Path. Numerous factors stop people from accomplishing their goals. They don't give their goals enough thought, jump in head-first, and waste a lot of time. They spend too much time overthinking their goals, and, even, if they manage to get started, they abandon the project midway, since it was taking way too long. They try to figure out their goals in their head and get nowhere; they have no plan. People are constantly re-evaluating their professional - and personal - situation. Then, they get to the point where they must take action, whether it's due to

circumstance (their job is being eliminated, they're in an unhealthy work environment, they have to move), choice (they want to start or grow their own business, it's time for a career change), or both (they want and need to increase their income). But how? The challenge is to figure out how to set and reach your goals, while the rest of the world - and the rest of your life - is business as usual. Your Goal Guide, by Debra Eckerling, is a roadmap that combines writing exercises with systems to help individuals set, plan, and achieve their professional and personal goals.

Roadtrip Nation Dec 06 2020 SO WHAT ARE YOU GONNA DO WITH YOUR LIFE? "You should be a lawyer, a doctor, an accountant, a consultant, blah, blah, blah. Everywhere you turn people try to tell you who to be and what to do with your life. We call that the noise. Block it. Shed it. Leave it for the conformists. As a generation, we need to get back to focusing on individuality. Self-construction rather than mass production. Define your own road in life instead of traveling down someone else's. Listen to yourself. Your road is the open road. Find it."—Mike and Nathan ***** After college Mike Marriner and Nathan Gebhard had no idea what to do with their lives. All they'd been exposed to were standard career paths like doctor and consultant—roads that didn't fit them at all. To see what else was out there they took a roadtrip across the nation in a huge forty-foot RV to meet with people who had successfully defined their own paths in life—including the chairman of Starbucks; a lobsterman from Maine; the director of Saturday Night Live; the conductor of the Boston Philharmonic; the first female Supreme Court Justice of the United States; head stylist for Madonna; and the CEO of National Geographic Ventures. All told, one hundred and forty people candidly shared their stories about how they got from college to the present. Now in Roadtrip Nation, Mike and Nathan share the most compelling tales with you. Along the way, they explain how you, too, can get out there and meet people on your own. From making cold calls to asking stimulating interview questions, Roadtrip Nation will give you the tools to create a life that you'll look back on and say: "I was true to myself every step of the way."

Roadmap to Resilience Nov 24 2019 For the military veteran or anyone who has experienced a traumatic event, returning to normal living can be a challenge. Be that as it may, even after events such as natural disasters, accidents, or one of intentional human design(e.g. combat, a terrorist attack, a sexual assault, etc.), approximately 70 to 80percent of individuals who are impacted adjust successfully. These individuals demonstrate resilience, and in some instances, even post-traumatic growth. But the remaining percentage will evidence lingering clinical disorders and adjustment problems, such as PTSD, anxiety, depressive, and substance abuse disorders that can result in suicidal acts, aggressive behavior, and divorce. Roadmap to Resilience includes over 100 ways to develop individual and family resilience-bolstering action plans to help those experiencing adjustment problems. In addition, it includes numerous narrative examples of successful coping from resilient individuals, self-improvement activities, and a comprehensive source guide designed to help the reader locate the exact information they need to address their situation.
