The Imagery of Writing in the Early Works of Paul Auster Jan 10 2021 The early works of Paul Auster convey the loneliness of the individual fully committed to the work of writing, as if he were confined within the book that dominates his life. All through Auster's poetry, essays and

fiction, the work of writing is an actual physical effort, an effective construction, as if the words aligned in the poem-text were stones to place in a row when building a wall or some other structure in stone. This book studies the symbolism of the genetic substance of the world (re)built through the work of writing, inside the walls of the room, closed in space and time, though open to an unlimited mental expansion. Paul Auster's work is an aesthetic-literary self-reflection about the mission of writing. The writer-character is like an inexperienced God, whose hands may originate either cosmos or chaos, life or death, hence Auster's recurring meditation on the work and the power of writing, at the same time an autobiography and a self-criticism. The stones, the wall, and the room – the words, the page, and the book – are the ontological structure of the imaginary cosmos generated in Paul Auster's mind, like a real world born of the magma of words lost in another, interior world.

Study Guide for Beginning Spanish II. Dec 29 2019

Values Education and Quality Teaching Dec 21 2021 Some revision of public schooling history is necessary to challenge the dominant mythology that public schools were established on the grounds of values-neutrality. In fact, those responsible for the foundations of public education in Australia were sufficiently pragmatic to know that its success relied on its charter being in accord with public sentiment. Part of the pragmatism was in convincing those whose main experience of education had been through some form of church-based education that state-based education was capable of meeting the same ends. Hence, the documents of the 1870s and 1880s that contained the charters of the various state and territory systems witness to a breadth of vision about the scope of education. Beyond the standard goals of literacy and

numeracy, education was said to be capable of assuring personal morality for each individual and a suitable citizenry for the soon-to-be new nation. As an instance, the NSW Public Instruction Act of 1880 (cf. NSW, 1912), under the rubric of “religious teaching”, stressed the need for students to be inculcated into the values of their society, including understanding the role that religious values had played in forming that society’s legal codes and social ethics. The notion, therefore, that public education is part of a deep and ancient heritage around values neutrality is mistaken and in need of serious revision. The evidence suggests that public education’s initial conception was of being the complete educator, not only of young people’s minds but of their inner character as well. The Poetry of Francisco Brines Aug 24 2019 "Brines's seven poetry collections offer a sustained inquiry into three fundamental philosophical themes: knowledge, the present moment, and non-being. These themes,

however, are presented as conflictual differences. The numerous poetic voices heard throughout his poetry continually wrestle with knowledge perpetually oscillating with ignorance, the present moment unceasingly becoming past, and human existence endlessly displaying its own finitude. In this study, the critical interpretation of these themes leads to the critical exploration of language, the signifying process of language, and the warring forces of signification. The sign is thus viewed as a structure of difference and as such it endlessly displays the duplicitous nature of language engaged in a semantic struggle with itself."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Literary Mind of Medieval and Renaissance Spain Jul 24 2019

The twelve essays in this florilegio of the work of Otis H. Green afford a representative view of the thought and scholarship of one of the world's foremost Hispanists. In each of them is developed some important facet of the intellectual milieu of the Middle Ages and Renaissance, reflecting Otis Green's life-long and wide-ranging quest for evidence that would broaden our understanding of those complex periods and correct the misapprehensions which have gathered about them. Included are important sections of his great work, *Spain and the Western Tradition* and essays from journals now difficult to obtain or out of print. This book provides a valuable introduction to Spanish thought and to the work of a scholar who has done much to elucidate it.

Aventura Alaska Brasil Aug 29 2022 Bill and Renee Carroll's "Aventura Alaska Brasil" proved to be a lifetime's journey of pleasure, disappointment and achievement. For an unprecedented 24/7 durability test, their car's engine was started in Anchorage, Alaska and ran almost continuously for 125 days and nights. At the same time they drove the brand-new Mercury coupe 24,876 miles south to Brazil's Rio de Janeiro. A highlight was transiting the Panama Canal and three days of cruising the Caribbean Sea because there was no other way to travel from Panama to South America. Overnights ranged from tiny hostels welcoming every traveler with old-world courtesy to magnificent chain edifices that routinely failed to know of verified room reservations. The variety of food included chocolate-coated ants in Columbia and gourmet dinners in Venezuela. Gasoline was usually available except when a town had none, or the only pump was on the far side of a barbed wire fence. Multi-lane pavement soon became a desired treat, cobblestones

rustic backbreakers, landslides in Costa Rica a dangerous hurdle and road rocks in Ecuador ripped a hole in the gasoline tank. Later, between Chile and Argentina, their route involved following rails and bouncing over ties through a railroad's "Tunel Internacional" deep in the Andes. Press conferences arranged by "Aventura" sponsors Ford Motor Company, Morton International, STP and Firestone Tire and Rubber were great fun. Most difficult was entering Brasil, where a senior Customs Inspector thought the Mercury's documents were forged, and restrained the Carrolls in his tiny border town for days. All, and more, is part of this exciting "Aventura Alaska Brasil."
