Gold, Silver, and Bronze May 26 2022 **Gold, Bronze, & Silver: A Doctor's Devotion to American Hockey** offers an inside view of the hockey players and teams that represented the United States in international competition from 1967 to 1990 as they traveled around the globe and behind the Iron Curtain. George "Doc" Nagobads served as team physician, multilingual problem solver, travel guide, and surrogate father to the young men traveling the world in pursuit of glory and gold. Fluent in four languages, Doc was the perfect person to handle challenges with passports, border crossings, KGB agents, and the youthful exuberance of young men looking to have a good time in sometimes-unfriendly environments. Doc's journal and camera were always with him as he traveled with over thirty teams, including the gold medal-winning 1980 US Olympic hockey team. This book includes the story of Doc's stopwatch, a key ingredient to beating the mighty Soviet team and performing a miracle on ice. Over one hundred and thirty photos complement the tales of camaraderie, friendship, injuries, pranks, and misadventures.

Strands of Bronze and Gold Oct 31 2022 The Bluebeard fairy tale retold. . . . When seventeen-year-old Sophia Petheram's beloved father dies, she receives an unexpected letter. An invitation—on fine ivory paper, in bold black handwriting—from the mysterious Monsieur Bernard de Cressac, her godfather. With no money and fewer options, Sophie accepts, leaving her humble childhood home for the astonishingly lavish Wyndriven Abbey, in the heart of

Mississippi. Sophie has always longed for a comfortable life, and she finds herself both attracted to and shocked by the charm and easy manners of her overgenerous guardian. But as she begins to piece together the mystery of his past, it's as if, thread by thread, a silken net is tightening around her. And as she gathers stories and catches whispers of his former wives—all with hair as red as her own—in the forgotten corners of the abbey, Sophie knows she's trapped in the passion and danger of de Cressac's intoxicating world. Glowing strands of romance, mystery, and suspense are woven into this breathtaking debut—a thrilling retelling of the “Bluebeard” fairy tale.

The Archaeology of Bronze Age Iberia Sep 05 2020 After more than a century of research, an enormous body of scientific literature in the field of El Argar studies has been generated, comprising some 700 bibliographic items. No fully-updated synthesis of the literature is available at the moment; recent works deal only with specific characteristics of Argaric societies or some of the regions where their influence spread. The Archaeology of Bronze Age Iberia offers a much-needed, comprehensive overview of Argaric Bronze Age societies, based on state-of-the-art research. In addition to expounding on recent insights in such areas as Argaric origin and expansion, social practices, and socio-politics, the book offers reflections on current issues in the field, from questions concerning the genealogy of discourses on the subject, to matters related to professional practices. The book discusses the values and interests guiding the evolution of El Argar studies, while critically reexamining its history. Scholars and researchers in the fields of Prehistory and Archaeology will find this volume highly useful.

Gold, Silver & Bronze from Mughal India Sep 29 2022 "Metalwork has always been to India what ceramics are to China. During the fabled Mughal age, the craftsmen of the Sultans and Rajahs of India produced an astonishing variety of objects in gold and gold enamel, silver, brass, bronze, gilt copper and the Deccani alloy known as bidri. The finest of these are among the most striking and poetic utilitarian wares ever made, in addition to being of the most outstanding technical refinement." "This, the first book on the metalwork of Mughal India, illustrates all the great surviving objects, the majority of which have never been published before and are unknown to the western connoisseur."--Jacket.

Antonio and Piero He Pollaiuolos Feb 08 2021 The volume, starting from the celebrated and fascinating Portrait of a Lady from the Poldi Pezzoli museum in Milan, one of the greatest masterpieces of Florentine portraiture from the latter half of the 15th century, investigates the art of the Pollaiolo brothers: Antonio, a goldsmith, painter and sculptor, and the most famous of the three; Piero, a painter; and Silvestro, who died young and was soon forgotten. Based on in- depth scientific analyses and research conducted on the methods of execution and materials used for

the wide range of different works issued from the Pollaiolo brothers workshop, the volume presents paintings, drawings, engravings, sculptures, bronzes, and objects of applied art.

The Oxford Handbook of the European Bronze Age Aug 05 2020 The Oxford Handbook of the European Bronze Age is a wide-ranging survey of a crucial period in prehistory during which many social, economic, and technological changes took place. Written by expert specialists in the field, the book provides coverage both of the themes that characterize the period, and of the specific developments that took place in the various countries of Europe. After an introduction and a discussion of chronology, successive chapters deal with settlement studies, burial analysis, hoards and hoarding, monumentality, rock art, cosmology, gender, and trade, as well as a series of

articles on specific technologies and crafts (such as transport, metals, glass, salt, textiles, and weighing). The second half of the book covers each country in turn. From Ireland to Russia, Scandinavia to Sicily, every area is considered, and up to date information on important recent finds is discussed in detail. The book is the first to consider the whole of the European Bronze Age in both geographical and thematic terms, and will be the standard book on the subject for the foreseeable future.

Reflections on the Pool Jul 04 2020 From Sonoma wine country in the north to sundrenched La Jolla in the south, and from Malibu's seaside enclaves to Palm Springs nestled in the desert, California's distinctive regions are home to many of the world's most stunning swimming pools. Since the ancient times, when manmade baths enhanced the gardens of Egyptian nobles, pools have been built as the ultimate symbols of luxury and leisure, providing a means of capturing one of nature's most elusive elements. Soon after the pool arrived in America in the nineteenth century, California became a mecca for pool owners, where many advances in pool design have been made over the last century. Reflections on the Pool presents 40 perfect pools in 100 brilliant color photographs. These include the

vibrant, Mexican-style architectural design of Ricardo Legorreta and the avant-garde, sensational creations of John Lautner, and illustrate the theories of the renowned landscape designers Thomas Church and Isabelle Greene. Each section of the book features a type of pool, or an element of pool design. Pools imitating nature, lap pools, architectural or highly ornamented pools are discussed in detail, as well as historic pools such as Hearst's Neptune Pool at San Simeon or Thomas Church's vanguard kidney-bean-shaped design of 1948, and other early California examples that set precedents for the pools of today. The introduction outlines technical aspects of design, and gives a brief history of the pool, including the influence of Hollywood on its popularity. Whether you own a pool or wish for one, and wherever you live, *Reflections on the Pool* is a color-infused, fresh, and inspirational display of the boundless possibilities in pool design.

Gold, Silver, and Bronze Jun 26 2022 Roman baroque sculpture is usually thought of in terms of large-scale statues in marble and bronze, tombs, or portrait busts. Smaller bronze statuettes are overlooked, and the extensive production of sculptural silver--much of which is now lost but can be studied from drawings--is omitted from the histories of art. In these lectures, Jennifer Montagu enriches our understanding of the sculpture of the period by investigating these works in metal: the bronzes that adorn the great tabernacles, which are a prominent feature of Roman churches; the often gilded silver, both secular and ecclesiastical; and elaborately embossed display dishes. She also looks at the production of medals, an essential aspect of metal sculpture that is usually confined to specialist literature. The book concentrates on selected pieces by such master sculptors as Bernini, and leading metal-workers such as Giovanni Giardini. Making extensive use of archival documents and drawings, Montagu examines the often tortuous relationship between the patrons and the artists and elucidates the relationship between those who provided the drawings or models and the craftsmen who executed the finished sculptures. In this way she provides insights into the procedures of the workshops, and at the same time opens our eyes to a new and fascinating area of sculpture.
