their [own] words, but its meaning is not plain. Despite the explosion of books, videos and TV shows that claim to penetrate the mystery of "2012"--the numerical shorthand for the completion on December 21, 2012, of the thirteenth B'ak'tun cycle in the Long Count of the Maya calendar--consensus about its meaning seems to remain elusive. The discussion about the significance of 2012 falls generally into two distinct camps: "New Age" authors who see this date as marking the advent of an imminent, universally accelerated psychic/spiritual evolution and professional astronomers and ethnologists who generally

discount such metaphysical claims. Christ and the Maya Calendar approaches the significance of 2012 by spiritually penetrating phenomena of today. Drawing on the book of Revelation--which provides an archetype for understanding spiritual history, as well as Rudolf Steiner's Apocalyptic indications--a completely new context for grasping the end date of the Maya calendar emerges. In a November 1919 lecture, Steiner made a stunning remark: "Ahriman skilfully prepares his goal beforehand...[and] will find an important instrument for preparing his incarnation. His incarnation is undoubtedly

coming, and this lack of insight will enable him to prepare it triumphantly." The subtitle of this book--"2012 and the Coming of the Antichrist"--refers to this coming incarnation of Ahriman. In fact, Steiner narrowed the timeline for Ahriman's incarnation, saying it would come "before only a part of the third millennium has run its course." Just after Christmas 1919, Steiner revealed more about the impending incarnation of Ahriman, saying almost offhandedly that Ahriman's name might be "John William Smith." With this remark, he clearly pointed to the incarnation occurring in the English-speaking West, while

other remarks made it is certain Steiner meant that the incarnation would take place in America. In addition to penetrating the spiritual background of our time in relation to the coming of the Antichrist (the incarnation of Ahriman), the authors explore the significance of the Mexican mysteries and present a wealth of new research with the intention of helping the reader to navigate the Apocalyptic scenario currently shaping up, with the global financial crisis as one important expression. Most important, the authors refer to the Second Coming of Christ as the true event of our time; the incarnation of Satan/Ahriman is its shadow.

The authors also show the significance of Divine Sophia as the antidote to negative consequences of Ahriman's incarnation. Finally, as a positive manifestation of the world of spirit in our time, the book discusses the significance of the young anthroposophist, Judith von Halle, who since Easter 2004 has born the stigmata, the visible signs of the wounds of Christ. A Note on the Title The word Antichrist is used in the title and throughout this book, and there are at least two ways in which this word may be understood. The more general use of the word is found in the Bible and in Christian tradition, in which the Antichrist is

understood to be the human being who bears the incarnated Satan (also called "Ahriman" in Persian tradition and, in Revelation 13 in the Bible, "The Beast"). This is how the word Antichrist is used in this book. However, this general meaning should be distinguished from another, more specialized use of the word, as found in the spiritual science of Anthroposophy, which often uses the word Antichrist to designate the Sun Demon, known as Sorath in the Hebrew tradition, referred to as the "Beast whose number is 666," and as "the two-horned Beast" in Revelation 13. In this connection, Rudolf Steiner refers to "the False Prophet

who represents the teachings of The Beast." The authors of this book discuss the significance of Sorath in chapters 7 and 8. Authors' Note Rudolf Steiner's large body of spiritual research has paved the way for further research encompassing thousands of volumes and numerous projects and social endeavors around the world. This book focuses upon Steiner's indications about the return of Christ, on the one hand, and the coming of the Antichrist, on the other hand. Both events, according to Steiner, are taking place, or will take place, in our time. Our endeavor is to provide a context in which the reader can

find help to be able to grasp the larger picture as to the nature of the time in which we live. The purpose of the book is to draw attention to Christ's return in the realm of life forces known as the etheric, as well as to the impending physical incarnation of Ahriman as the Antichrist. The book is carefully written in the spirit of the age of the clear, critical consciousness of modern humanity to allow people to draw their own conclusions. Thus, it is not a matter of pointing the finger and pronouncing slogan-like statements. Rather, it is a matter of providing a context for the reader to arrive at a deeper grasp of what is taking

place in the world at the present time, which can be attained only by way of hard study and the honest endeavor to attain a higher level of cognition. The main point is that the coming of the Antichrist is actually the shadow side of the much greater event of Christ's coming in the etheric realm, whereby Divine Sophia is actively working to help humanity to become aware of this greatest event of our time. Central to Rudolf Steiner's impulse is the development of intuitive faculties, which he named Imagination, Inspiration, and Intuition. This means that, when research is presented, people--through the

exercise of their intuitive faculties--come to their own cognition of the truth and do not depend simply upon what is said by those presenting the research. The goal is--and must be--to arrive at truth for oneself, not based upon anyone else's statements. Although, of course, the statements of others can be taken as a starting point for arriving at the truth. However, cognition of the truth depends upon the development of intuitive faculties going beyond intellectual speculation. Since the publication of this book, various pronouncements--many of a speculative nature--have been made concerning the content of the book. The

authors fully support the expression of freedom of thought and freedom of speech underlying statements about the book but obviously cannot be held responsible for the conclusions drawn by others from the research presented in this book. Their concern is truth--in the spirit of the words: "You shall know the truth, and the truth shall make you free" (John 8:32). In relation to the Antichrist, called the Beast in chapter 13 of the Book of Revelation, his way (Revelation 13) is prepared by the Prophet of the Beast. Nowhere in this book are statements made identifying specific individuals as the Beast (Antichrist) or as the Prophet of the Beast. Yet,

The Holiest of the Holies (THOTH), the Last Testament
Jan 19 2022 For thousands of years humanity has longed for a truth, revelation, or knowledge that explains the unity of God behind all mystical experiences, previous revelations, and religions of the world, and the truth behind the universe (science). There have been mystical explanations of God from those claiming they have experienced the truth by direct contact with Spirit. There are also those who have founded great religions of the world. If you study this Book carefully, with a sincere mind and an Open Heart, it will be revealed to you that the major religions on earth are not contradictory and separated at all. They examine how research agendas have developed in relationship to broader interests in the field and the ways in which the anthropology of the region has responded to the sociopolitical and economic policies of Mexico and Guatemala. Most importantly, they focus on the changing conditions of life of the indigenous peoples of Mesoamerica. This volume thus offers a comprehensive picture of both the indigenous populations and developments in the anthropology of the region over the last thirty years.

anthropologists each spent 16 months living in communities in Africa, Asia, Europe and South America, focusing on the take up of smartphones by older people. Their research reveals that smartphones are technology for everyone, not just for the young. The Global Smartphone presents a series of original perspectives deriving from this global and comparative research project. Smartphones have become as much a place within which we live as a device we use to provide 'perpetual opportunism', as they are always with us. The authors show how the smartphone is more than an 'app device' and explore differences between

what people say about smartphones and how they use them. The smartphone is unprecedented in the degree to which we can transform it. As a result, it quickly assimilates personal values. In order to comprehend it, we must take into consideration a range of national and cultural nuances, such as visual communication in China and Japan, mobile money in Cameroon and Uganda, and access to health information in Chile and Ireland - all alongside diverse trajectories of ageing in Al Quds, Brazil and Italy. Only then can we know what a smartphone is and understand its consequences for people's lives around the world.

Maya Apocalypse Feb 20 2022 Maya Apolcalypse is the record of fieldwork that, as often happens, ended up quite differently from the way it was originally planned. In conducting a research project about speaking in tongues (glossolalia), Felicitas Goodman recorded this non-ordinary behavior among English- and Spanish-speaking members of Pentecostal congregations. A

Mexican Apostolic Pentecostal minister introduced Goodman to the preacher in a Maya village in Yucatan. The congregation she came to know in 1969 experienced a 'crisis cult' in response to a prediction of the end of the world, which was to take place on September 1, 1970. Goodman subsequently spent a part of every year until 1986 with the women of the congregation. Maya Apocalypse is a record of that fieldwork, which eventually covered not only the events in the temple, both ordinary and extraordinary, but also the lives of the women who acted as informants, especially Doña Eus, to whom this work is affectionately

dedicated.

Converting Words Dec 26 2019 "This synthesis of history, anthropology, and linguistics gives a view of the first two hundred years of the Spanish colonization of the Yucatec Maya. Drawing on a range of sources, it documents the crucial role played by language in cultural conquest: how colonial Mayan emerged in the age of the cross, how it was taken up by native writers to become the language of indigenous literature, and how it ultimately became the language of rebellion against the system that produced it. The book includes analyses of the linguistic practices of both

missionaries and Mayas—as found in bilingual dictionaries, grammars, catechisms, land documents, native chronicles, petitions, and the forbidden Maya Books of Chilam Balam. It presents an approach to the study of religious and cultural conversion that aims to illuminate the history of Latin America and beyond."--

Native Languages of the Americas Aug 22 2019 The publishing history of the eleven chapters that comprise the contents of this second volume of Native Languages of the Americas is rather different from that of the thirteen that appeared in Volume I of this twin set late last year. Original

versions of five articles, respectively, by Barthel, Grimes, Longacre, Mayers, and Suarez, were first published in Part II of Current Trends in Linguistics, Vol. 4, subtitled Ibero-American and Caribbean Linguistics (1968), having been commissioned by the undersigned in his capacity as editor of the fourteen volume series which was distributed in twenty-one tomes between 1963 and 1976. McClaran's article is reprinted from Part III of Vol. 10. Linguistics in North America (1973) and the two by Kaufman and Rensch were in Part I I of Vol. 11, Diachronic, A real. and Typological Linguistics (1973). There are three contributions by Landar:

earlier versions of two appeared in Vol. 10 ("North American Indian Languages. " accompanied by William Sorsby's maps of tribal groups of North and Central America), and in Vol. 13, Historiography of Linguistics (1975); however, his checklist of South and Central American Indian languages was freshly compiled for this book. Generous financial support for preparing the materials included in this project came from several agencies of the United States government, to wit: the National Endowment for the Humanities and the National Science Foundation, for Vols. 10 and 13, and the Office of Education, for Vols. 4 and 11;
