Non-Binding Norms in International Humanitarian Law Jul 16 2021

This monograph examines and analyses the phenomenon of non-binding instruments (also

known as 'soft law') in the law of armed conflict, or international humanitarian law. It covers the benefits and drawbacks for States and non-States actors as well as their effectiveness and development in the context of armed conflict.

New Directions in Grammaticalization

Research Jun 02 2020 The articles in this volume examine a number of critical issues in grammaticalization studies, including the relationship between grammaticalization and pragmatization, subjectification and intersubjectification, and grammaticalization and language contact. The contributions consider data from a broad range of spoken and signed languages, including Greek, Japanese, Nigerian Pidgin, Swedish, and Turkish Sign Language. The authors work in a variety of theoretical frameworks, and draw on a number of research traditions. The volume will be of primary interest to historical linguists, though the diversity of approaches and sources of data mean that the volume is also likely have

considerable general appeal.

Focke Wulf FW190 Manual Sep 29 2022

When the German Focke Wulf Fw190 fighter burst onto the scene over France in 1941 it took the RAF by surprise, outperforming the Spitfire Mk V. At the time the RAF described the performance gap as 'a quantum leap'. Its superior performance on the Eastern Front had a significant impact in the air war against the Soviet Union. Graeme Douglas gets under the skin of the Fw190 with the new-build Focke Wulf Fw190A-8 and D-9 models built by the Flug Werk company in Germany. He also describes flying and maintaining the Fw190 in combat.

2021 Analytical Chemistry Refresher Manual provides a comprehensive refresher in techniques and methodology of modern analytical chemistry. Topics include sampling and sample preparation, solution preparation, and discussions of wet and instrumental methods of analysis; spectrometric techniques of UV, vis, and IR spectroscopy; NMR, mass spectrometry, and atomic spectrometry techniques; analytical separations, including liquid-liquid extraction, liquid-solid extraction, instrumental and non-instrumental chromatography, and electrophoresis; and basic theory and instrument design concepts of gas chromatography and high-performance liquid chromatography. The manual also covers automation, potentiometric and voltammetric techniques, and the detection and accounting of laboratory errors. Analytical Chemistry Refresher Manual will benefit all laboratory workers, water and wastewater professionals, and academic researchers who are looking for a

readable reference covering the fundamentals of modern analytical chemistry.

Mini Restoration Manual Sep 17 2021 Filled with everything restorers are looking for including Mini history, buying information, specs, bodywork, mechanics, interiors, electrics, mods, tools, color schemes, clubs and more. Clear, step-by-step photographs and instructions make this the book for renovating your bodywork and interiors, giving new life to mechanical and electrical components, plus improved performance and appearance. Covers all models including Mini Cooper. Strongly recommended. For those who love Minis, or are thinking about buying.

U.S. Military Operations Dec 09 2020 In U.S.

Military Operations: Law, Policy, and Practice, a distinguished group of military experts comprehensively analyze how the law is applied during military operations on and off the battlefield. Subject matter experts offer a unique insiders perspective on how the law is actually implemented in a wide swath of military activities, such as how the law of war applies in the context of multi-state coalition forces, and whether non-governmental organizations involved in quasi-military operations are subject to the same law. The book goes on to consider whether U.S. Constitutional 4th Amendment protections apply to the military's cyber-defense measures, how the law guides targeting decisions, and whether United Nations mandates constitute binding rules of international humanitarian law. Other areas of focus include how the United States interacts with the International Committee of the Red Cross regarding its international legal obligations, and how courts should approach civil claims based
