Evil Geniuses Oct 29 2022 How an elite cabal rewrote the American dream for their
gain – and left the rest of world behind. Evil Geniuses is the secret history of how, over
the last half century, from even before Ronald Reagan through Donald Trump,
America has sharply swerved away from its dream of progress for the many to a system

of unfettered profit and self-interest for the few. As the social liberation of the 1960s finally ended in the chaos of Vietnam and Watergate, a cabal of rich industrialists, business chiefs, wide-eyed libertarians and right-wing economic radicals were waiting, determined to claw back everything they saw as rightfully theirs. Largely out of sight, they rapidly built and funded a new empire of think tanks and academic institutions and professional organisations, lobbying and political groups, using them to transform politics, media, finance, the legal system and US laws to reinvent and control the political economy. A throwback to the robber barons of a century earlier, they sold the remade system to the people as a nostalgic return to traditional American values. Within a decade, America's flourishing forward-thinking vision was incarcerated by the unchecked financial accumulation and political power of the super-rich. Now, the moneymen are running the show. In this hugely entertaining and deeply researched cultural and economic exposé, New York Times bestselling author Kurt Andersen maps the rich history of intricate networks, unlikely connections and dark truths which are controlling a nation, revealing how on earth America got to where it is now – and what it might do to win its progressive future back.

The Parallel Abduction Sep 04 2020 THE PARALLEL ABDUCTION is a short story jigsaw puzzle involving a mysterious inter-dimensional adventurer, a university campus experiencing increasingly odd events, even stranger oddities happening in the city, time meddlers and the enigmatic figures of the game designers with their secrets and surprise appearances. Pieced together, the stories form a picture that is best viewed from several angles. Perhaps also from several dimensions.

The Encyclopedia of Hollywood Film Actors Jun 20 2019 For decades, Screen World has been the film professional's, as well as the film buff's, favorite and indispensable annual screen resource, full of all the necessary statistics and facts. Now Screen World editor Barry Monush has compiled another comprehensive work for every film lover's library. In the first of two volumes, this book chronicles the careers of every significant film actor, from the earliest silent screen stars – Chaplin, Pickford, Fairbanks – to the mid-1960s, when the old studio and star systems came crashing down. Each listing includes: a brief biography, photos from the famed Screen World archives, with many rare shots; vital statistics; a comprehensive filmography; and an informed, entertaining assessment of each actor's contributions – good or bad! In addition to every major player, Monush includes the legions of unjustly neglected troupers of yesteryear. The result is a rarity: an invaluable reference tool that's as much fun to read as a scandal sheet. It pulsates with all the scandal, glamour, oddity and glory that was the lifeblood of its subjects. Contains over 1 000 photos!

Kurt Vonnegut Jan 20 2022 Drawing on his experiences as a young man in the Great Depression and the Second World War, Kurt Vonnegut created a new style of fiction responsive to the post-war world and unique in its appeal to both popular audiences and avant-garde critics. His work was profoundly innovative and yet perfectly lucid. In this comprehensive introductory study, originally published in 1982, Jerome Klinkowitz traces Vonnegut's influences within the American middle class, his early efforts as a

short-story writer for magazines in the 1960s and his startling and unprecedented success as a bestselling experimental novelist with *Slaughterhouse-Five*. His self-consciously moral posture led to readers throughout the world accepting him as their spokesman for humane values, a role which Klinkowitz considers within the context of his work.

Sapiens Sep 16 2021 New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be "human." One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—*homo sapiens*. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical

or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, *Sapiens* integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

She just fears her last case might end with the most intelligent killer she's ever faced escalating from murder...to epidemic.

From Monk to Money Manager Oct 05 2020 Build a better financial future for yourself and the world. Former monk turned financial advisor, Doug Lynam, shares the rules of money management that will change your approach to earning, saving, and investing. *From Monk to Money Manager* is an entertaining and self-deprecating journey through Lynam's relationship with the almighty dollar—his childhood in a rich family, the long-haired hippie days running away from materialism, time in the Marine Corps looking for selfless service, and his twenty years in the monastery under a vow of poverty that led to his current profession as a financial advisor. In this unique look at wealth from a spiritual perspective, Lynam shares his belief that God doesn't expect us to live in poverty. The truth is, we need financial peace so we can help others. When money becomes a part of our spiritual practice, used in love and service, it can bring us closer to our highest spiritual ideals. With humor and humility, Lynam uses stories told through the lens of his own money mistakes, and those of counseling clients, to understand how our attitudes about money hold us back. He also provides clear, step-by-step guidance on how to grow a little bit wealthy. His insights include how to build

a compassionate relationship to our finances; some of the good, bad, and ugly truths about money; and the tricks to unlocking financial freedom.

A House on Stilts Jun 01 2020 A House on Stilts tells the story of one woman's struggle to reclaim wholeness while mothering a son addicted to opioids. Paula Becker's son Hunter was raised in a safe, nurturing home by his writer/historian mom and his physician father. He was a bright, curious child. And yet, addiction found him. More than 2.5 million Americans are addicted to opioids, some half-million of these to heroin. For many of them, their drug addiction leads to lives of demoralization, homelessness, and constant peril. For parents, a child's addiction upends family life, catapulting them onto a path no longer prescribed by Dr. Spock, but by Dante's Inferno. Within this ten-year crucible, Paula is transformed by an excruciating, inescapable truth: the difference between what she can do and what she cannot do.

The Days of Afrekete Oct 25 2019 "I didn't feel like I was reading this novel—I felt like I was living it." —Ann Patchett, author of *The Dutch House* From award-winning author Asali Solomon, *The Days of Afrekete* is a tender, surprising novel of two women at midlife who rediscover themselves—and perhaps each other, inspired by *Mrs. Dalloway*, *Sula*, and Audre Lorde's *Zami* Liselle Belmont is having a dinner party. It seems a strange occasion—her husband, Winn, has lost his bid for the state legislature—but what better way to thank key supporters than a feast? Liselle was never sure about her husband becoming a politician, never sure about the limelight, never sure about the life of fundraising and stump speeches. Then an FBI agent calls to warn her that Winn might be facing corruption charges. An avalanche of questions tumbles around her: Is it possible he's guilty? Who are they to each other; who have they become? How much of herself has she lost—and was it worth it? And just this minute, how will she make it through this dinner party? Across town, Selena Octave is making her way through the same day, the same way she always does—one foot in front of the other, keeping quiet and focused, trying not to see the terrors all around her. Homelessness, starving children, the very living horrors of history that made America possible: these and other thoughts have made it difficult for her to live an easy life. The only time she was ever really happy was with Liselle, back in college. But they've lost touch, so much so that when they ran into each other at a drugstore just after Obama

was elected president, they barely spoke. But as the day wears on, memories of Liselle begin to shift Selena's path. Inspired by Mrs. Dalloway and Sula, as well as Audre Lorde's *Zami*, Asali Solomon's *The Days of Afrekete* is a deft, expertly layered, naturally funny, and deeply human examination of two women coming back to themselves at midlife. It is a watchful celebration of our choices and where they take us, the people who change us, and how we can reimagine ourselves even when our lives seem set.

The Last Kings of Shanghai Dec 07 2020 "In vivid detail... examines the little-known history of two extraordinary dynasties."--The Boston Globe "Not just a brilliant, well-researched, and highly readable book about China's past, it also reveals the contingencies and ironic twists of fate in China's modern history."--LA Review of Books An epic, multigenerational story of two rival dynasties who flourished in Shanghai and Hong Kong as twentieth-century China surged into the modern era, from the Pulitzer Prize-winning journalist *Shanghai, 1936*. The Cathay Hotel, located on the city's famous waterfront, is one of the most glamorous in the world. Built by Victor Sassoon--billionaire playboy and scion of the Sassoon dynasty--the hotel hosts a who's who of global celebrities: Noel Coward has written a draft of *Private Lives* in his suite and Charlie Chaplin has entertained his wife-to-be. And a few miles away, Mao and the nascent Communist Party have been plotting revolution. By the 1930s, the Sassoons had been doing business in China for a century, rivaled in wealth and influence by only one other dynasty--the Kadoories. These two Jewish families, both originally from Baghdad, stood astride Chinese business and politics for more than 175 years, profiting from the Opium Wars; surviving Japanese occupation; courting Chiang Kai-shek; and losing nearly everything as the Communists swept into power. In *The Last Kings of Shanghai*, Jonathan Kaufman tells the remarkable history of how these families participated in an economic boom that opened China to the world, but remained blind to the country's deep inequality and to the political turmoil at their doorsteps. In a story stretching from Baghdad to Hong Kong to Shanghai to London, Kaufman enters the lives and minds of these ambitious men and women to forge a tale of opium smuggling, family rivalry, political intrigue, and survival. The book lays bare the moral compromises of the Kadoories and the Sassoons--and their exceptional foresight, success, and generosity. At the height of World War II, they joined together to rescue and protect eighteen thousand Jewish refugees fleeing Nazism. Though their stay in China started out as a business opportunity, the country became a home they were reluctant to leave, even on the eve of revolution. The lavish buildings they built and the booming businesses they nurtured continue to define Shanghai and Hong Kong to this day. As the United States confronts China's rise, and China grapples with the pressures of breakneck modernization and global power, the long-hidden odysseys of the Sassoons and the Kadoories hold a key to understanding the present moment.

Oxford Examined Dec 19 2021 Repeatedly jamming his fork of curiosity into the live toaster of opportunity, comedian Richard O. Smith captures the experience of living in Oxford in probably the funniest book written about the Dreaming Spires. Collected

here are 70 of his best Oxford Examined columns from the award-winning Oxford Times magazine Oxfordshire Limited Edition including several previously unpublished stories. In these unflinchingly truthful columns he meets celebrities (Kate Middleton, Dara O'Briain, the one who plays Phoebe in Friends and a predictably grumpy Alan Sugar), visits the 11th dimension with an Oxford University maths protégée, gatecrashes Encaenia, flirts with a Roman slave girl from 79AD, is ejected from the Oxford Union by burly security, witnesses a comeuppance for a pack of arrogant students, conducts a walking tour for Britain's scariest hen party, moves a library (which transpires to be harder work than moving a mountain), sees Britain's most pretentious theatre production, participates in the UK's national bell ringing championships (yes, that is a thing), allows Oxford University psychologists to experiment on him, rescues four escaped horses in a busy Oxford street (thankfully it wasn't the apocalypse), becomes a crime-fighting superhero, is hospitalised in a serious bike accident, gets chased by a furious revenge-fixated woman dressed as a Friesian cow, strides out of his house one morning and disappears down a giant sink hole, mentors two stand-up comedy virgins, commits a devastating social faux pas and pledges to never use a split infinitive or sentence this long again. 'Right from the introductory preamble, this is pure comedy genius. I dare anybody to read it and not start sniggering out loud. Warning: this may attract odd looks if you are on a bus or anywhere else in public.' --Oxford Times 'Bring together an outstanding comic writer and a city of unlikely people and you'll find the perfect love-match. The wittiest, zaniest, and most truthful guide to a city you'll read: armchair travel has never been so good. Or so funny.' --Susie Dent 'The funniest book ever about Oxford. Pure comedy genius. I read Oxford Examined and laughed so much.' --Gill Oliver, Oxford Mail

Not Exactly a Company Man Aug 03 2020 *Not Exactly a Company Man* is both an oral history memoir and a dissection of U.S. policy during the wars that engulfed the former Yugoslavia in the early-mid-1990s. Divided roughly by tours of duty, the first parts describe the professional coming of age of a young, newly-minted Foreign Service Officer as he adapted to the myriad challenges of diplomatic life at home and abroad. The middle parts provide sketches of Tito's Yugoslavia, Thatcher's Britain, resolution of the long intractable Czechoslovak Claims/Gold problem, and assorted scuffles in both the bureaucratic trenches and the upper reaches of government. An extended portion of the book deals with three critical years in which Administrations of both parties largely stood aside during the Bosnian genocide and how they sought, ingloriously, to justify their timidity. It describes in particular how Washington became so intent on avoiding a larger role in the Balkans that it greenlighted a major Iranian move into Europe, an act with potentially dire consequences for broader U.S. interests and for the immediate security of U.S. personnel on the ground. Finally, it explains how, in his time as chief of mission in front-line Croatia and later, before several Congressional Committees, this officer dealt with, as his interviewer puts it, the "real honest to god dragons" of conscience that would effectively end his Foreign Service career.

We Had a Little Real Estate Problem Feb 09 2021 A Best Book of 2021 by NPR and Esquire From Kliph Nesteroff, “the human encyclopedia of comedy” (VICE), comes the important and underappreciated story of Native Americans and comedy. It was one of the most reliable jokes in Charlie Hill’s stand-up routine: “My people are from Wisconsin. We used to be from New York. We had a little real estate problem.” In *We Had a Little Real Estate Problem*, acclaimed comedy historian Kliph Nesteroff focuses on one of comedy’s most significant and little-known stories: how, despite having been denied representation in the entertainment industry, Native Americans have influenced and advanced the art form. The account begins in the late 1880s, when Native Americans were forced to tour in wild west shows as an alternative to prison. (One modern comedian said it was as “if a Guantanamo detainee suddenly had to appear on X-Factor.”) This is followed by a detailed look at the life and work of seminal figures such as Cherokee humorist Will Rogers and Hill, who in the 1970s was the first Native American comedian to appear *The Tonight Show*. Also profiled are several contemporary comedians, including Jonny Roberts, a social worker from the Red Lake Nation who drives five hours to the closest comedy club to pursue his stand-up dreams; Kiowa-Apache comic Adrienne Chalepah, who formed the touring group the Native Ladies of Comedy; and the 1491s, a sketch troupe whose satire is smashing stereotypes to critical acclaim. As Ryan Red Corn, the Osage member of the 1491s, says: “The American narrative dictates that Indians are supposed to be sad. It’s not really true and it’s not indicative of the community experience itself...Laughter and joy is very much a part of Native culture.” Featuring dozens of original interviews and the exhaustive research that is Nesteroff’s trademark, *We Had a Little Real Estate Problem* is a powerful tribute to a neglected legacy.

What Becomes You Jul 02 2020 "Being a man, like being a woman, is something you have to learn," Aaron Raz Link remarks. Few would know this better than the coauthor of *What Becomes You*, who began life as a girl named Sarah and twenty-nine years later began life anew as a gay man. Turning from female to male and from teaching scientist to theatre performer, Link documents the extraordinary medical, social, legal, and personal processes involved in a complete identity change. Hilda Raz, a well-known feminist writer and teacher, observes the process as both an "astonished" parent and as a professor who has studied gender issues. All these perspectives come into play in this collaborative memoir, which travels between women's experience and men's lives, explores the art and science of changing sex, maps uncharted family values, and journeys through a world transformed by surgery, hormones, love, and . . . clown school. Combining personal experience and critical analysis, the book is an unusual--and unusually fascinating--reflection on gender, sex, and the art of living.

Mindful School Libraries: Creating and Sustaining Nurturing Spaces and Programs Sep 23 2019 Complement efforts in the classroom to work on social-emotional learning, and understand the affective needs of young people in library settings. Given the national climate of anxiety and fear, climbing diagnoses of neurological difference, and overall sensitivity, fewer young people come to school able to self-soothe. Building on

the work of Nel Noddings, Lynne Evarts, and Meghan Harper, this book focuses on the deliberation, quiet, and reflection sometimes described collectively as mindfulness. From breathing exercises to meditation, mindfulness exercises can be a coping mechanism for at-risk students, and librarians can create an environment, away from the classroom, in which students can explore their abilities to regulate and control their social and emotional responses, skills that underpin information retrieval and analysis. The role of school libraries in promoting mindfulness in the twenty-first century could parallel the quest for intellectual stimulation and self-improvement that informed the public libraries movement in the late nineteenth century. Providing practical suggestions for working in concert with classroom teachers, school counseling staff, and community partners, this guide will inform librarians' practice by increasing awareness of how to create a nurturing space for students in the school library. Highlights how mindfulness strategies have been successfully implemented in classroom and library spaces Recommends a range of easy-to-implement, no- or low-cost adjustments to space and services that can make the library experience more inclusive and positive Harnesses the increasing interest in social-emotional learning and how that undergirds student readiness to learn and confidence as a learner

Punchline Sep 28 2022 Whose bed was she sleeping in! The setup: To her horror, magazine editor Belle Martens discovered it wasn't all a bad joke when she woke up naked next to an equally naked rival editor, Darryl Horak. Why, she loathed the arrogant male chauvinist—and his magazine. It was all because of the punch, spiked with—of all things!—an aphrodisiac. The punchline: The pregnancy test was positive. How could that be? Then again, how could she forget? She and Darryl in bed. Together. Naked. Belle just wished she remembered some of it! The knockout: Darryl moved in and discovered he liked living with the sexy, vivacious redhead. The perpetual playboy began imagining babies (not just one). But what about when Belle saw his article on "Why Fathers Make Better Parents"? Ouch!

Quirkology Aug 15 2021 Ever wondered why bad musicians always win the Eurovision Song Contest, or how incompetent politicians get elected? You need some Quirkology in your life. While other scientists beaver away on obvious problems, Richard Wiseman has been busy uncovering the secret ingredients of charisma, exploring how our personalities are shaped by when we are born and examining why people usually miss the obvious signs of their partner's infidelity. Using scientific methods to investigate offbeat topics that interest the general public as well as the scientific community, Quirkology brings a new understanding to the backwaters of the human mind and takes us to places where mainstream scientists fear to tread. Comparable to Freakonomics, but British, far more populist, and a lot funnier. Findings include: How does your surname influence your life? What does the way you walk reveal about your personality? Why should women have men write their personal ads? What is the funniest joke in the world?

Will your major help you get the right job offers? Our destinies have been reduced to a caricature:

In *You Can Do Anything*, George Anders explains the remarkable power of a liberal arts education - and the ways it can open the door to thousands of cutting-edge jobs every week. The key insight: curiosity, creativity, and empathy aren't unruly traits that must be reined in. You can be yourself, as an English major, and thrive in sales. You can segue from anthropology into the booming new field of user research; from classics into management consulting, and from philosophy into high-stakes investing. At any stage of your career, you can bring a humanist's grace to our rapidly evolving high-tech future. And if you know how to attack the job market, your opportunities will be vast. The University of Google Feb 27 2020 Looking at schools and universities, it is difficult to pinpoint when education, teaching and learning started to haemorrhage purpose, aspiration and function. Libraries and librarians have been starved of funding. Teachers cram their curriculum with 'skill development' and 'generic competencies' because knowledge, creativity and originality are too expensive to provide to unmotivated students and parents obsessed with league tables, not learning. Meanwhile, the internet offers a glut of information on everything-under-the-sun, a mere mouse-click away. Bored surfers fill their cursors and minds with irrelevancies. We lose the capacity to sift, discard and judge. Information is no longer for social good, but for sale. Tara Brabazon argues that this information fetish has been profoundly damaging to our learning institutions and to the ambitions of our students and educators. In *The University of Google* she projects a defiant and passionate vision of education as a pathway to renewal, where research is based on searching and students are on a journey through knowledge, rather than consumers in the shopping centre of cheap ideas. Angry, humorous and practical in equal measure, *The University of Google* is based on real teaching experience and on years of engaged and sometimes exasperated reflection on it. It is far from a luddite critique of the information age. Tara Brabazon celebrates the possibilities of digital platforms in education, but deplores the consequences of placing funding on technology and not teachers. In doing so, she opens a new debate on how to make our educational system both productive and provocative in the (post-) information age.
